

## CLARKE CREEK WIND FARM

### Expression of Interest (EOI)

## Inland transportation and traffic management

### General

Clarke Creek Wind Farm (Project) is located within the locality of Clarke Creek, approximately 150km north west of Rockhampton in Central Queensland. The wind farm will involve the construction of up to 195 wind turbines with a maximum tip height of 220m and associated ancillary infrastructure. The life of the wind farm is 25 years.

The project is currently in the final phases of feasibility and design. Construction is planned to start in mid-2019 and be completed by mid-2021.

Goldwind Australia Pty Ltd (Goldwind) has been appointed the delivery partner for this Project. Works may either be contracted directly to Goldwind or their appointed major subcontractors.

### Expressions of Interest

Lacour Energy and Goldwind encourages local businesses interested in providing transportation for the Clarke Creek Wind Farm to register an expression of interest (EOI) through the ICN Gateway webpage.
