

Barossa Offshore Project

Package No: **20190201-AUW**

Package Name: **Manpower & Global Mobility Services**

Scope of Work

ConocoPhillips proposes to award a number of fabrication contracts in support of the Barossa Offshore Project, with work to be performed in international locations identified below. Company intends to begin mobilising personnel to these international locations in readiness for the detailed design and execute phase of the Project.

The Manpower & Global Mobility (MGM) Services scope includes:

- Recruitment and supply of expatriate contingent workers and local manpower;
- Provision of global mobility services for expatriate contingent workers and permanent staff to broadly include:
 - mobilisation and demobilisation of current contingent workers and/or international hires; and
 - provision of visas/work permits in specified locations;
- In country/assignment support to including meet & greet, orientation & accommodation management;
- In country payroll & tax services;
- Provision of appropriate insurances for contingent workers including medical cover; and
- Provision of emergency support to contingent workers.

Location of Services

	<u>Scenario 1</u>	<u>Scenario 2</u>
Contract	Fabrication Contractor 1	Fabrication Contractor 2
Detail Design Location	Kuala Lumpur	Singapore
Principal Fabrication Locations	South Korea	China
Other locations yet to be determined	SE Asia, US, Europe	

Manpower & Global Mobility Support Requirements

Approximate number of expatriate contingent workers to mobilise to international location: ~80 – 100 (will also include permanent COP staff), subject to selected contractor and location

Expected roles/disciplines of expatriate contingent workers to mobilise to international location, at a high level:

- FPSO technical engineering disciplines and construction roles
- Project services disciplines (cost, scheduling, information management, information technology)
- Contracts and procurement specialists
- Operations support/specialist roles
- SSPL (“Subsea Pipeline”) site reps
- HSEQ quality inspectors and HSE advisors

Expected ‘local’ hire contingent worker recruitment: ~80 – 100, subject to selected contractor and location, at a high level:

- Pre-ops HUC PTW (“Hook-Up & Commissioning Permit to Work”) Coordinators
- SSPL/FPSO technical engineering disciplines such as site engineers (marine, hull, topsides, integration)
- Project services (mostly information management/doc control, could also include cost, scheduling)
- Contracts and procurement
- HSEQ quality roles and H&S advisors for fab yards & HUC
- Administrative support

Minimum requirements for the MGM service provider:

- Track record in delivering MGM services for major offshore oil & gas capital projects for Australian clients in each of the location scenarios above.
- Able to demonstrate both recent experience and capability to deliver the MGM services for the project as specified above.
- An office located in Australia, preferably in Perth.
- An established presence globally with offices located in each of the location scenarios and the main Oil & Gas construction hubs including the key shipyards.
- Established local support on the ground for each scenario above, including provision of housing, travel and emergency support, such as medical emergencies.
- Access to immigration support services and capability to provide appropriate work permits/visas, generally, and for the disciplines listed above, in each location scenario.
- Expertise and knowledge of current immigration legislation or proposed changes to legislation that may impact the provision of immigration support to the project in each of the location scenarios above.

Anticipated contract award: Q4 2019

Project Registration

ConocoPhillips is committed to ensuring Australian Industry full, fair and reasonable opportunity to participate in the Barossa Project. Expressions of Interest are invited from contractors and suppliers with the relevant capability and capacity to undertake the scope of work.

This is a request for specific expressions of interest. Contractors and suppliers will be considered for prequalification and tender if suitably qualified against this package.

All registrations are to be completed via ICN Gateway BarossaOffshore.icn.org.au. Please contact the ICNNT if registration assistance is required. Contact details: (08) 8922 9422 or admin@icnnt.org.au.
