

PLUTO LNG TRAIN 2

MR Number: 26221-100-MRA-JV01-00001

Title: General Service Control Valves

Scope of Work: Furnish all labor, materials, and services for the design, fabrication, testing, preparation for shipment and delivery of the Control Valves (modulating valves that control various process parameters primarily associated with the Liquefied Natural Gas facility). Seller shall provide control valves of various sizes, materials and flange rating as indicated in the spreadsheets. All equipment shall be in accordance with the Technical Specifications and attachments, complete and operational when installed in accordance with Sellers instructions and include all necessary accessories. Seller shall make arrangements for conducting testing on valves in cryogenic service, which shall be witnessed by a Buyer's representative.

Compliance with applicable Australian/local regulations, statutory requirements, Australian codes and standards is required
