

IRON BRIDGE MAGNETITE PROJECT PACKAGE 662NSP4003 – CONCENTRATE BELT FILTERS SCOPE OF WORK

Project Overview: IB Operations Pty Ltd (IB Operations), as agent for the joint venture between FMG Magnetite Pty Ltd and Formosa Steel IB Pty Ltd, is developing a new magnetite mine and associated infrastructure at its Iron Bridge Site (Iron Bridge Magnetite Project). The Iron Bridge site comprises the North Star, Eastern Limb, Glacier Valley and West Star magnetite iron ore deposits located in the Pilbara region of Western Australia. The Iron Bridge Magnetite Project will include the execution of a process plant, non-process infrastructure, a slurry and return water pipelines, a raw water pipeline and port infrastructure to support 22 wmtpa production. Delivery of first ore is expected in the first half of calendar year 2022. Package Title: Concentrate Belt Filters Reference: 662NSP4003 At the time of publishing this invitation to register an interest, the Supply includes the design, manufacture, assembly, surface preparation and treatment, factory testing, disassembly, packaging for transport and loading onto transport, of Concentrate Belt Filters, which includes: - capability of continuous process operation with minimal solids recirculation and / or losses; - all supporting structures, including primary supporting steelwork, and all compliant lifting points; - all accessories and ancillaries such as pumps, filter tanks and compressed air receivers; - all instrumentation and instrument interfaces for local and remote interfacing, including all wiring, cabling, junction boxes and marshalling panels as required; - all fasteners for the equipment to allow complete assembly; and - all maintenance tooling and protection devices. Australian Standards apply to this package. The Iron Bridge Magnetite Project, including this package 662NSP4003 is subject to internal approvals. The procurement process or scope, may change at the IB Operations' election, including to accommodate project budget and time requirements. Expression of Interest (EOI): Be Operations invites expressions of interest (EOI) from cap

IRON BRIDGE MAGNETITE PROJECT PACKAGE 662NSP4003 – CONCENTRATE BELT FILTERS SCOPE OF WORK

	IB Operations will use the EOIs to improve its understanding of market capability and interest. Suitable EOI Registrants may be invited to submit a tender for this package 662NSP4003.
EOI Closing Date:	28 May 2019
Target Award Date:	At the time of publishing this invitation to register an EOI, August 2019
Project Contact Officer:	All communications in connection with this invitation to register an EOI for this package 662NSP4003, including clarification regarding this package 662NSP4003 or request for technical support in connection with the EOI or ICN Gateway, must be submitted to:
	Linus O'Brien, Principal Supply Chain Consultant
	Industry Capability Network of Western Australia
	T: (08) 9365 7556
	E: Linus.OBrien@icnwa.org.au
Project URL's:	Details of additional Iron Bridge Magnetite Project opportunities will be published on the ICN Gateway at ironbridge.icn.org.au
Disclaimer:	The information contained in this invitation to register an EOI is indicative only and subject to change at IB Operations' discretion. It is intended to provide a brief outline of the relevant Supply which may be required on the Iron Bridge Magnetite Project and should be read in conjunction with the Iron Bridge Magnetite Project Description on the ICN Gateway.
