Astute Electronics is at the forefront of quality and service-driven component distribution, setting the standards now and anticipating future trends to ensure our services are aligned to your business.

We serve the world's leading OEMs and EMS companies with global product sourcing and traceability, electronic product design, logistics & supply-chain management as well as in-house anti-counterfeit testing and product obsolescence management.

Our capabilities and people are unique.

#### Key services

Franchised & traceable electronics global sourcing

Specialist in connector, semiconductor, passives, electromechanical and power technologies

Commodities procurement & bespoke handling

Component engineering & technical support across franchises

Managed supply-chains, vendor reduction, 3PL & kitting

Anti-counterfeit electronic component testing, mitigation & de-risking

Obsolescence management & through-life support

## Summary

Welcome to Astute Electronics. Our growth spans three decades and crosses five continents. We are now one of the world's most knowledgeable, quality-driven experts in franchised 'Hi-Rel' electronics distribution, global procurement and supply-chain management. Astute offer a more technically-focused, integrated partnership that delivers smarter outcomes for our customers. Trusted by many of the world's largest, most respected Defence Primes, OEMs and electronics manufacturers, we meet their everyday requirements for traceable electronic components, design-in support, parts

procurement and integrated logistics.
