ConocoPhillips **Barossa Offshore Project** Reference No: ITT10 DRLBAR DCF Title: Provision of Drilling & Completion Fluids and Engineering Services Consists generally of the provision of necessary drilling fluids (bulks and packaged), Scope of Work: a storage, mixing and processing facility in Darwin for warehousing, blending /treatment and processing of drilling fluids, base oil and brines, and the associated offshore and onshore engineering services to support the drilling and completion of 6 subsea production wells 300 kilometres north-northwest of Darwin, Northern Territory, within the Bonaparte Basin, located in the Timor Sea. Description of major equipment required at the onshore facility, Darwin: fully enclosed, weatherproof and bunded liquid and dry bulk storage tanks. materials management equipment, including forklifts, cranes etc, bulk mixing tanks, mixing hoppers (ideally with shear units), mud mix pumps, agitators, centrifuge(s), filtration unit(s), processing equipment. rigid and flexible pipelines, dust collection equipment, qualified and experienced personnel, and other necessary tools, equipment and machinery to run an efficient and safe operation. Objectives: The main objectives for this source of interest and information are to enable ConocoPhillips to identify suitable suppliers and gather the latest market information on drilling & completion fluids, products, liquid mud plant opportunities and specialised engineering services that conform to the specifications identified in the scope of work, All products and fluids supplied shall conform to the CoPA Drilling

Project Registration

ConocoPhillips is committed to ensuring Australian Industry full, fair and reasonable opportunity to participate in the Barossa Project. Expressions of Interest are invited from contractors and suppliers with the relevant capability and capacity to undertake the scope of work.

Fluid & Cement Products Selection Procedure (ALL/DR/PLO/002).

This is a request for specific expressions of interest. Contractors and suppliers will be considered for prequalification and tender if suitably qualified against this package.

Note that an important part of the project registration process is to register an Expression of Interest at the correct Scope level.

Scope level definition:

Full scope: Able to produce / supply all of the package.

Partial scope: Able to produce / supply one or more of the sub-packages.

All registrations are to be completed via ICN Gateway <u>BarossaOffshore.icn.org.au</u>. Please contact the ICNNT if registration assistance is required. Contact details: (08) 8922 9422 or <u>admin @icnnt.org.au</u>.
