

CHEVRON AUSTRALIA

TITLE: Fire System Services (R-34717)

DESCRIPTION: Chevron Australia is seeking expression of interest (EOI) from service providers able to provide specialist fire system services for Gorgon, Wheatstone (Upstream and Downstream) and Barrow Island Oilfield.

The fire system services scope includes (but not limited to):

- 1) Provision of onsite fire safety system and associated equipment maintenance;
- 2) Testing services, including general maintenance, fault finding and troubleshooting;
- 3) Engineering support function including design, manufacture and supply of equipment;
- 4) Provision of detailed execution maintenance planning support for campaign maintenance activities;
- 5) Recommend and supply of spare parts required for planned and unplanned maintenance;
- 6) Provision of specialist tooling and test equipment;
- 7) Maintenance of an auditable database of all site-based fire and safety equipment in line with regulatory compliance;
- 8) Provision of suitably qualified, competent and experienced personnel;
- 9) All services in accordance with the latest version of Applicable Australian Standards for fire protection;
- 10) Safe and suitably environmentally friendly disposal of used equipment at particular sites specific to hazardous material; and
- 11) Manufacturing, maintenance and repair, assurance testing, associated record keeping and resupply of installed plant and consumable equipment and materials at companies area of operation and Contractors workshop (offsite).

CONTACT: Industry Capability Network of Western Australia – www.icnwa.org.au/ContactUs.asp

Please Note: This is a request for specific expressions of interest. Service providers will be considered for inclusion in the RFP if suitably qualified against this package.
