

## PLUTO LNG TRAIN 2

SR Number: 26221-100-MRA-MVSC-00003

Title: Pig Receiver

Scope of Work: Mechanical Design, manufacture and supply of Pig Receivers

MOC: Carbon Steel

Design Code: ASME B31.4 / AS 2885.1

Supplementary Code: ASME B 31.8 or ASME Section VIII Div. 2, Class 1, Latest Edition

Pipeline Size: 800 mm

Size: 1,100 mm Dia x 13,700 mm T/T

Design Pressure: 241,00 kPag

Design Temperature: 70 °C

MDMT: (-)29 °C

Pig Receiver shall include: (a) Quick Opening Closure with pressure interlock (b) Flanged end connecting to Pipeline.

Compliance with local, state and National codes and regulations (Western Australia). Each equipment must be registered with the local regulatory authority. Each piece of equipment must be registered with the local regulatory authority.
