Project Overview:	IB Operations Pty Ltd (**IB Operations**), as agent for the joint venture between FMG Magnetite Pty Ltd and Formosa Steel IB Pty Ltd, is developing a new magnetite mine and associated infrastructure at its Iron Bridge site (**Iron Bridge Magnetite Project**). The Iron Bridge site comprises the North Star, Eastern Limb, Glacier Valley and West Star magnetite iron ore deposits located in the Pilbara region of Western Australia. The Iron Bridge Magnetite Project will include the execution of a process plant, non-process infrastructure, a slurry and return water pipelines, a raw water pipeline and port infrastructure to support 22 wmtpa production. Delivery of first ore is expected in the first half of calendar year 2022.
Package Title:	Coagulant Plant
Reference:	662NSP2050
Package Description:	At the time of publishing this invitation to register an interest, the supply includes the design, manufacture, assembly, surface preparation and treatment, factory testing, disassembly and packaging for transport and loading onto transport, of Coagulant Plant for location in the process plant, including the following: - complete Coagulant Plant, including bulk material unloading, mixing and dosing equipment, all pumps, conveyors, agitators, tanks, electric motor drives, speed reducers, couplings, shafts, and all other mechanical equipment required; - steel supporting structures, mounting frames and baseplates; - all instrumentation and instrument interfaces for local and remote interfacing, including all wiring, cabling, junction boxes and marshalling panels, as required; - all lubrication and/or hydraulic power packages as required; - surface preparation and coating to project specification; - replaceable wear resistant linings where required; - all fasteners for the equipment to allow complete assembly; - all maintenance tooling and protection devices; and - spare parts. Australian Standards apply to this package 662NSP2050 Coagulant Plant. The Iron Bridge Magnetite Project, including this package 662NSP2050 Coagulant Plant is subject to internal approvals. The procurement process or scope, may change at the IB Operations' election, including to accommodate project budget and time requirements.
Expression of Interest (EOI):	IB Operations invites expressions of interest (**EOI**) from capable and experienced contractors and suppliers, who are safety focused and price competitive for this package 662NSP2050 Coagulant Plant. Interested parties must register an EOI on the **ironbridge.icn.org.au**. EOI Registrants are required to provide the following information as part of its EOI: a. an ICN Gateway company profile, current in all material respects; and b. completed Preliminary Prequalification Information.

	IB Operations will use the EOIs to improve its understanding of market capability and interest. Suitable Registrants may be invited to submit a tender for this package 662NSP2050 Coagulant Plant.
EOI Closing Date:	27 August 2019
Target Award Date:	At the time of publishing this invitation to register an EOI, November 2019.
Project Contact Officer:	All communications in connection with this invitation to register an EOI for this package 662NSP2050 Coagulant Plant including clarification regarding this package 662NSP2050 Coagulant Plant or request for technical support in connection with the EOI or ICN Gateway, must be submitted to: Linus O'Brien, Principal Supply Chain Consultant Industry Capability Network of Western Australia T: (08) 9365 7556 E: Linus.OBrien@icnwa.org.au
Project URL's:	Details of additional Iron Bridge Magnetite Project opportunities will be published on the ICN Gateway at **ironbridge.icn.org.au**.
Disclaimer:	The information contained in this invitation to register an EOI is indicative only and subject to change at IB Operations' discretion. It is intended to provide a brief outline of the relevant Supply which may be required on the Iron Bridge Magnetite Project and should be read in conjunction with the Iron Bridge Magnetite Project Description on the ICN Gateway.
