SAFERAD SE ASIA PTY LTD

INDUSTRIES SERVED

CONSTRUCTION &
ENGINEERING

STEEL

Company Details

Address: U8/32 BEACH ST
KWINANA BEACH WA, 6167 Australia

Ph: +61 8 9439 6599

Fax: +61 8 9439 6411

Email: info@saferad.com.au

Web: www.saferad.com.au

ICN Gateway Company ID: 124924

ABN: 39 137 226 021

Locations: 2

Works in Remote Locations: Yes

Contacts

Mr Scott Buttery

The Small Area For Exposure Radiography allows a number of units to be operated simultaneously in a small area to give very high production rates that can easily keep pace with production.

Summary

SafeRad are the world leaders in Close proximity radiography. The SafeRad radiography system eliminates the need to evacuate personnel. Not only do we perform state of the art radiography with small boundaries- we also

cater to other NDT methods including Magnetic Particle inspection, Dye Penetrant inspection and Ultrasonic inspection.

Description

The Small Area For Exposure Radiography allows a number of units to be operated simultaneously in a small area to give very high production rates that can easily keep pace with production. There are no size or configuration limits. SafeRad Radiography systems are consistently helping our clients to meet their production targets and maintain schedules, without any exclusion zones. GammaBlok is the trademark of our patented radiation attenuation high density plastic. Selenium-75 radioactive isotopes are used in the SafeRad Radiography Exposure container to give high quality radiographs.

Saferad Ltd also design and manufacture equipment and materials for pipeline radiography safety.

We also don't dilute our efforts on other forms of NDT (non-destructive testing) equipment. Our equipment is designed by specialists to meet the most demanding requirements of safety and productivity to deliver to you the very best radiography system in the world.

SafeRad Ltd are committed to a programme of continual development to ensure that you have the latest innovative equipment available.

Industries Served

- > Construction & Engineering
- > Steel

Major Clients

- > UGL
- > DOWNER CLOUGH JV
- > CIVMEC
- > WOODSIDE
- > APACHE
- > CSBP (WESTFARMERS)
- > AGC
- > BAE Systems
- > RCR
- > Tronox
- > BP
- > Bam Clough
- > Downer
- > Chevron

Accreditations

- > NATA

Products & Services

- > Close proximity radiography
- > Conventional X-ray and gamma radiography
- > Magnetic particle inspection
- > Dye Penetrant inspection
- > Ultrasonic testing inspection, heat treatment
- > Ferrite, PMI, hardness and boroscope inspection

Facilities and Equipment

- > Workshop based exposure bays.
- > Fully equip workshop darkroom.
- > Mobile Darkroom facilities.
- > X-ray and gamma equipment.
- > Ultrasonic testing equipment.
- > Magnetic Particle inspection equipment.
- > Dye Penetrant inspection equipment.
- > PMI, Hardness & Ferrite testing equipment.
- > PWHT Machines & recorders, heating elements & insulation.
- > Portable Boroscope Camera Equipment.

Previous Significant Projects

2018

Orbost Gas Plant Upgrade
\$1,500,000

Client: Downer EDI

NDT Services inclusive of close proximity Radiography

2016

CAPE LAMBERT EXPANSION
\$800,000

Client: RCR

CLOSE PROXIMITY RADIOGRAPHY AND OTHER CONVENTIONAL NDT SERVICES CARRIED WHILST WELDING/PIPE FITTING CONTINUED WITHOUT DISRUPTION.

2016

**WHEATSTONE HOOK-UP
OFFSHORE/CHEVRON WORKS**
\$2,500,000

Client: CLOUGH

CLOSE PROXIMITY RADIOGRAPHY AND OTHER CONVENTIONAL NDT SERVICES CARRIED WHILST SIMOPS CONTINUED WITHOUT DISRUPTION.

2013

CSBP NAAN 3 CONSTRUCTION
\$3,000,000

Client: DOWNER/CLOUGH JV

FULL NDT AND PWHT SCOPE OF WORK FOR THE ENTIRE PROJECT WITHOUT STOPPING ANY OTHER PERSONNEL FROM WORKING.

2017

ICHTHYS CCP2
\$10,000,000

Client: DOWNER

MAIN NDT AND PWHT CONTRACTOR. RADIOGRAPHY PERFORMED WITHOUT STOPPING ANY OTHER PERSONNEL FROM WORKING

2016

GORGON PROJECT BARROW ISLAND
\$1,500,000

Client: DOWNER

CLOSE PROXIMITY RADIOGRAPHY AND OTHER CONVENTIONAL NDT SERVICES CARRIED WHILST WELDING/PIPE FITTING CONTINUED WITHOUT DISRUPTION.

2013

APACHE SUBSEA MANIFOLDS
\$4,000,000

Client: CIVMEC/CAMERON/APACHE

CLOSE PROXIMITY RADIOGRAPHY AND OTHER CONVENTIONAL NDT SERVICES CARRIED WHILST WELDING/PIPE FITTING CONTINUED WITHOUT DISRUPTION.

2013

**YARRALOOA & PARABURDOO
COMPRESSOR STATION CONSTRUCTION**
\$2,000,000

Client: UGL

CLOSE PROXIMITY RADIOGRAPHY AND OTHER CONVENTIONAL NDT SERVICES CARRIED WHILST WELDING/PIPE FITTING CONTINUED WITHOUT DISRUPTION.
