

PLUTO LNG TRAIN 2

MR Number: 26221-100-MRA-JF21-00001

Title: Custody Metering Skid

Scope of Work: Drawings & Data
Quality System Description

1. Feed Gas custody metering system (include the following for each run)

Ultrasonic flow meter, complete assembly including the following

Electronic flow transmitter

Electronic pressure transmitter

Electronic temperature transmitter

RTD temperature element

vanstone type stainless steel thermowell with brass hex plug with SS ball chain

Local temperature gauge with vanstone type stainless steel thermowell

local pressure gauge

stainless steel "spearman" flow conditioner

2. Flow computer enclosure (include the following) omni 6000 flow computer free standing rittal or equal enclosure redundant power supply purge system for cabinet with pressure switch on loss of purge terminal blocks interface modules between analyzer model patch panel engineering laptop work station configuration of omni flow computer

3. Metering supervisory computer

4. Flow Calibration

5. Start-Up & Commissioning Spares

All Equipment Provided Must Meet Local Codes for Western Australia, Project Specifications, as Well as any Other Australian/Local Regulations, Statutory Requirements, and Australian Codes and Standards as Applicable.
