## 1. SCOPE

BAE Systems are seeking Expressions of Interest (EOI) to supply cable securing product for the Hunter Class Frigate Program (HCFP).

BAE has recently been down selected to design and build the Royal Australian Navy's (RAN) future frigates.

The BAE Systems Future Frigate offering, also known as the Hunter Class GCS-A (Global Combat Ship – Australia) is a variant of the British Type 26 GCS (T26).

The Hunter Class Frigates will be built at the ASC Shipbuilding Facility at Osborne, Adelaide, SA.

The purpose of the Capability Questionnaire is to establish the feasibility of prospective Suppliers to provide cable securing products for the HCFP.

The Hunter Class Program will require maximisation of local content in Australia.

Suppliers will be expected to work autonomously within the BAE partnering strategy.
