

CHEVRON AUSTRALIA

Thevenard Island Retirement (TVIR)

TITLE: Onshore Decommissioning and Remediation Activities (U-36904)

DESCRIPTION: Chevron Australia (Company) is seeking expressions of interest from service providers able to provide Thevenard Island Onshore Decommissioning and Remediation Activities (including the reinstatement of the land profile) in support of Thevenard Island Retirement Project.

The petroleum infrastructure and facilities have been shut in and flushed and the remaining infrastructure, facilities and utilities are currently in care and maintenance. The scope should proceed on the assumption of no remaining hazardous materials or hydrocarbons.

Contractor shall provide equipment and personnel to assist the Company to dismantle, stockpile, transport and dispose redundant infrastructure, facilities and utilities and to remediate and reprofile land on Thevenard Island.

Scope of work includes (but not limited to):

1. Marine transport for all equipment, plant, waste, consumables, and supplies to and from Thevenard Island.
2. Demolition, dismantling, stockpiling and removal of redundant infrastructure, facilities and utilities, e.g. tanks (including 3 oil storage tanks - 56.5m diameter, 22.3m height), plant, pipelines, cables etc., on Thevenard Island.
3. Segregate and transport waste, including fluids, for disposal or recycling on the mainland.
4. Segregate, transport and sale of scrap metals, and provide a rebate to the Company.
5. On-site crushing of concrete and concrete stabilized sands.
6. Assist the Company with excavation and on-site remediation of impacted soils.
7. Assist the Company to reinstate the island land profile.
