

PLUTO LNG TRAIN 2

MR Number: 26221-100-MRA-ATRM-00001

Title: Architectural Building Materials for Shelters

Scope of Work: Furnish metal panel for roofing and siding for shelters. Panels are to have galvanized base coat and pre-finished factory applied outer coating. Supplier shall also furnish associated trim work, with galvanized base coat and pre-finished factory applied outer coating. Metal siding and associated trim shall be in accordance with AS 2728.

Project site is in Wind Region D as per AS/NZS 1170.2 thus, panels must be in compliance with the Building Code of Australia, Specification B1.2.

Approximate Quantity - 3700 square meters
Approximate schedule - Sep 2020 to Feb 2021

All equipment provided must meet local codes for Western Australia, project specifications, as well as any other Australian/local regulations, statutory requirements, and Australian codes and standards as applicable.
