

Reference No:	ITT22_DRLBAR_Cooling
Title:	Provision of Air, Steam, & Rig Deluge Services
Scope of Work:	<p>Provision of ancillary Flowback services, comprising steam supply / compressed air supply / rig deluge services for the Barossa high rate flowbacks.</p> <p>Package to include:</p> <ul style="list-style-type: none"> a) Zone 2 steam generator(s) including steam supply hosing to reach third party steam heat exchanger and discharge. Minimum 4.5MMBTU capacity with 6MMBTU preferred. ESD tie-in capability required. b) Multiple Zone 2 air compressors (notionally 6ea with backup) including air-pig and supply hosing to reach MODU flare booms. Minimum 1000scfm, with 1300-1600scfm preferred. Local and remote ESD shut down capability needed. Equipment should be stackable and provide ladders / stairways for maintenance and refuelling. c) Rig deluge package, including dual submersible pumps including hang-off frame, dual Zone 2 surface booster pumps, flare boom spray nozzle, portable rigside spray nozzles, water hosing and PSV's to connect all components, and multiple heat reflective blankets. d) Methanol fire fighting capability, including supply of AFFF-AR foam, with the option of an automated foam response to a methanol fire. e) Portable heat and noise monitoring equipment, Zone 2 rated. f) Personnel to operate steam generator, air compressors, and rig deluge package. <p>Schedule (subject to change):</p> <ul style="list-style-type: none"> a) Contract Award: Q3 2020 b) No earlier Spud: Q3 2021 c) No later Spud: Q4 2021
Objectives:	<p>The main objectives for this source of interest and information are to:</p> <ol style="list-style-type: none"> 1. Enable ConocoPhillips to gather the latest market information on equipment that conforms to the specifications identified in the scope of work. 2. Explore suppliers' ideas or recommendations to identify design opportunities, including adoption of innovative technologies, in delivering equipment that meets the required specification.

Project Registration

ConocoPhillips is committed to ensuring Australian Industry full, fair and reasonable opportunity to participate in the Barossa Project. Expressions of Interest are invited from contractors and suppliers with the relevant capability and capacity to undertake the scope of work.

This is a request for specific expressions of interest. Contractors and suppliers will be considered for prequalification and tender if suitably qualified against this package.

Note that an important part of the project registration process is to register an Expression of Interest at the correct Scope level.

Scope level definition:

Full scope: Able to produce / supply all of the package.

Partial scope: Able to produce / supply one or more of the sub-packages.

All registrations are to be completed via ICN Gateway BarossaOffshore.icn.org.au. Please contact the ICNNT if registration assistance is required. Contact details: (08) 8922 9422 or admin@icnnt.org.au.
