

Tanami Expansion 2 (TE 2) Project - EXPRESSION OF INTEREST (EOI)

Project Overview: The Newmont Tanami Operation (NTO) is located in the Tanami Desert of the Northern Territory approximately 530 km north west of Alice Springs. The Brownfields mining operations are located at the Dead Bullock Soak (DBS) area approximately 42 km to the west of the Granites. The nearest settlement is Yuendumu some 250 km southeast of The Granites. The Tanami Expansion 2 (TE 2) Project consists of expanding the mining infrastructure at Newmont Goldcorp Tanami Operations and potential increase of current ore production rate from its current nominal 2.6 Mtpa.

Package Title: Construction of Underground Ore Bins and Silos

Reference: C4033

Package Description: The purpose of the Silo and Waste Pass system is to facilitate the delivery of ore to the skip loading facility.

The scope of work includes the furnishing of all labour, materials and services for the installation and commissioning of the Underground Vertical Development, which includes the Fine Ore Silo (equipment no. 0760-SL-2000) and Transfer Silo (equipment no. 0760-SL-2001) complete with civil concrete and backing to liner plates and radial wear liner plates. The raiseboring of the Waste Pass will be undertaken by others, with the Contractor installing the concrete backing to liner plates and radial wear liner plates. The Waste Pass will be in two raisebore legs with the upper leg being +/- 80m long and the lower leg being +/- 20m long. Also included is the supply, fabrication, delivery and installation, including concrete works, of the static grizzly over the Waste Pass and a bulkhead under each of the three developments.

The scope is to include the civil concrete works associated with each of the bulkhead developments. The works shall be sequenced and carried out to permit normal operations of the mine facility to continue.

The scope of work for this package spans several facility areas as listed below:

Structures to be Constructed:

Structure	Excavation Size	Lining Thickness **	Finished Sizes	Structure Height
Fine Ore Silo	9m diameter	250mm	8.5m diameter	+/- 55m
Transfer Silo	9m diameter	250mm	8.5m diameter	+/- 21m
Waste Pass (raisebore done by others)				
- Upper Leg	4.3m diameter	250mm	3.8m	+/- 80m
- Lower Leg	4.3m diameter	250mm	3.8m	+/- 25m

** Lining thickness of 250mm includes supply and installation of the radial wear plate lines.

Items which are to be supplied and installed, including associated civil concrete works for each of the installations, are listed below:

Area	Structure	Supply	Install
Fine Ore Silo	Eccentric level footwall civils concrete slab and collar works	Yes	Yes
	Silo radial liner wear plate system	Yes	Yes
	Bulkhead structural steelwork	Yes	Yes
	Bulkhead civils concrete:		
	- Bottom of silo slab including throat liners	Yes	Yes
	- Bulkhead foundations and footwall slab	Yes	Yes
Transfer Silo	Top of silo footwall slab and collar works	Yes	Yes
	Top of transfer silo conveyor tip steelwork	No	No
	Silo radial liner wear plate system	Yes	Yes
	Bulkhead structural steelwork	Yes	Yes
	Bulkhead civils concrete:		
	- Bottom of silo slab including throat liners	Yes	Yes
	- Bulkhead foundations and footwall slab	Yes	Yes
Waste Pass	Grizzly Bars	Yes	Yes
	Grizzly tip civils concrete	Yes	Yes
	Truck / bogger wheel stops	Yes	Yes
	Waste pass radial liner wear plate system	Yes	Yes
	Bulkhead structural steelwork	Yes	Yes
	Bulkhead civils concrete:		
	- Bottom of silo slab including throat liners	Yes	Yes
	- Bulkhead foundations and footwall slab	Yes	Yes

The scope is divided into the following discrete work areas, which are all work areas where work is to be performed under this package:

- Contractor own temporary facilities
- Fine Ore Silo
- Transfer Silo
- Waste Pass

The Contractor shall be responsible for the supply of all labour, supervision, plant, services, equipment and materials for the procurement, fabrication and manufacture of all equipment and components, testing, installation, commissioning, on site setting out, auditing and inspection and training. Unless otherwise stated, the Contractor shall be responsible for the performance of the whole of the Works, including such work as may be required, but not specifically described here; to achieve Practical Completion of the works.

In accordance with Newmont’s commitments to building local and Indigenous capacity in the region, the tender evaluation will include a weighting for utilising local regional businesses in the Northern Territory.

Newmont reserve the right to combine this package and or parts of this package with any other project package.

Key Information to be included in the EOI:	<p>Must provide a proposed local indigenous participation plan with Traditional owners, local aboriginal and/or other aboriginal people specific for the contract package</p> <p>Must provide resourcing information specific for the contract package.</p> <p>Must be able to demonstrate how to meet construction environmental commitments and provide evidence from other projects. Evidence to be supported with key past client reference people and their contact details</p> <p>Must be able to demonstrate how to meet cultural heritage commitments and provide evidence from other projects.</p> <p>Must provide details of a Safety Management system and records of previous safety performance such as LTIFR and RIFR.</p> <p>Must provide details of a Quality Management system and records of previous performance.</p>
Key Milestones:	<p>Tenderers Release Date: 28.07.2020</p> <p>Target Contract Award Date: 22.11.2020</p> <p>Completion: TBA</p>
Expression of Interest:	<p>Contractors are invited to express an interest in this package by registering on the ICN Gateway on line platform. Please ensure your ICN company profile is up to date before registering your expression of interest.</p>
EOI Closing Date:	<p>21.07.2020</p>
Contact:	<p>Industry Capability Network Northern Territory</p> <p>www.gateway.icn.org.au.</p>
Project URL's	<p>For more information about Newmont please refer to the company website www.newmont.com</p>
Disclaimer:	<p>This package description and target award date is indicative only and subject to change. It is intended to provide only a brief outline of certain works that may be required for the TE2 project and should be read in conjunction with the TE2 project description on ICN Gateway.</p>
