

Tanami Expansion 2 (TE 2) Project - EXPRESSION OF INTEREST (EOI)

Project Overview: The Newmont Tanami Operation (NTO) is located in the Tanami Desert of the Northern Territory approximately 530 km north west of Alice Springs. The Brownfields mining operations are located at the Dead Bullock Soak (DBS) area approximately 42 km to the west of the Granites. The nearest settlement is Yuendumu some 250 km southeast of The Granites. The Tanami Expansion 2 (TE 2) Project consists of expanding the mining infrastructure at Newmont Goldcorp Tanami Operations and potential increase of current ore production rate from its current nominal 2.6 Mtpa.

Package Title: **Specialised Valves**

Reference: **P4034**

Package Description: The scope of work covers the design, supply, manufacture, testing and inspection at the Supplier's works and delivery to site of all Specialised Valves and Underground Pressure Reducing Stations. The following equipment shall be supplied:

Pressure Reducing Stations

Underground Mid Shaft Plat Pressure Reducing Stations

- Skid Mounted Pressure Reducing Station for Service Water – 1 Lot
- Skid Mounted Pressure Reducing Station for Potable Water – 1 Lot
- Skid Mounted Pressure Reducing Station for Fire Water – 1 Lot

Underground Personnel Plat Pressure Reducing Stations

- Skid Mounted Pressure Reducing Station for Service Water – 1 Lot
- Skid Mounted Pressure Reducing Station for Potable Water – 1 Lot
- Skid Mounted Pressure Reducing Station for Fire Water – 1 Lot

Underground Skip Loading Plat Pressure Reducing Stations

- Skid Mounted Pressure Reducing Station for Service Water – 1 Lot
- Skid Mounted Pressure Reducing Station for Potable Water – 1 Lot
- Skid Mounted Pressure Reducing Station for Fire Water – 1 Lot

Specialised Valves

Underground Shaft Bottom Pressure Valves and Safety Valves

- Pressure Reducing Valve and Safety Relief Valve for Service Water – 1 Lot
- Pressure Reducing Valve and Safety Relief Valve for Potable Water – 1 Lot
- Pressure Reducing Valve and Safety Relief Valve for Fire Water – 1 Lot

Shaft Vacuum Break / Air Vent Valves

- Vacuum Break / Air Vent Valve for Service Water on all Plat Levels – 4 Each
- Vacuum Break / Air Vent Valve for Potable Water on all Plat Levels – 4 Each
- Vacuum Break / Air Vent Valve for Fire Water on all Plat Levels – 4 Each

Surface Pressure Reducing Station Valves

- Pressure Reducing Valves and Safety Relief Valves for Service Water – 1 Lot
- Pressure Reducing Valves and Safety Relief Valves for Potable Water – 1 Lot
- Pressure Reducing Valves and Safety Relief Valves for Fire Water – 1 Lot

The Supplier shall be responsible for the design, supply, manufacture and delivery of the whole works, including such work as may be required, but not specifically described here; and will supply all labour, equipment and consumables to facilitate the works.

In accordance with Newmont’s commitments to building local and Indigenous capacity in the region, the tender evaluation will include a weighting for utilising local regional businesses in the Northern Territory.

Newmont reserve the right to combine this package and or parts of this package with any other project package.

Key Information to be included in the EOI:

Must provide resourcing information specific for the contract package.

Must provide details of a Quality Management system and records of previous performance.

Key Milestones:

Tenderers Release Date: 21.07.2020

Target Contract Award Date: 23.10.2020

Completion: TBA

Expression of Interest:

Contractors are invited to express an interest in this package by registering on the ICN Gateway on line platform. Please ensure your ICN company profile is up to date before registering your expression of interest.

EOI Closing Date:

20.07.2020
