

Tanami Expansion 2 (TE 2) Project - EXPRESSION OF INTEREST (EOI)

Project Overview: The Newmont Tanami Operation (NTO) is located in the Tanami Desert of the Northern Territory approximately 530 km north west of Alice Springs. The Brownfields mining operations are located at the Dead Bullock Soak (DBS) area approximately 42 km to the west of the Granites. The nearest settlement is Yuendumu some 250 km southeast of The Granites. The Tanami Expansion 2 (TE 2) Project consists of expanding the mining infrastructure at Newmont Goldcorp Tanami Operations and potential increase of current ore production rate from its current nominal 2.6 Mtpa.

Package Title: **Rope Attachments**

Reference: **P4009**

Package Description: The scope of work covers the design, supply, manufacturing, fabrication, heat treatment, corrosion protection, assembly, shipping, inspection, testing, certification, and delivery to Site of the rope attachments for the Koepe production winder and double drum personnel-riding winder, as follows:

Koepe Production Winder

- Koepe head rope attachments (including 2 off right angle jaw and tang chaseblocks and 2 off straight jaw and tang chaseblocks) with rope sockets and hydraulic adjustment linkages (HAL) for a four (4) 52 mm rope system – 1 set
- Koepe head rope attachments (including 2 off right angle jaw and tang chaseblocks and 2 off straight jaw and tang chaseblocks) with rope sockets and course adjustment linkages for a four (4) 52 mm rope system – 1 set
- Koepe tail rope attachments (including 1 off right-angle double jaw chase block and 1 off right-angle jaw and tang chaseblock) with rope sockets complete with 3-bearing swivels for a four (4) 54 mm rope system – 2 sets
- Resin kits to suit the Koepe winder head and tail ropes – 16 sets
- Four (4) rope socket preparation stand – 1 set
- Dual set of strain gauges included in each head rope drawbar link – 8 sets
- Hydraulic system for HAL (packaged unit, including all fittings, hoses, pump, manifolds, and reservoir) – 1 lot
- Complete spare set of head and tail rope attachments – 1 set
- Resin kits to suit the head ropes for initial rope adjustment – 12 sets

Double Drum Personnel-riding Winder

- 10 Ton complete detaching hooks – 2 sets
- Rope sockets and attachments (including 1 off right angle jaw and tang chaseblock and 1 off straight jaw and tang chaseblocks) – 2 sets
- Resin kits to suit the double drum winder ropes – 2 sets
- Dual set of strain gauges included in each drawbar link – 2 sets

- Catch plates to suit detaching hook – 2 sets
- Complete spare set of attachments excluding catch plates – 1 set

All attachment linkages must be supplied including chase blocks, pins, drawbars, deadeyes and the like, including hydraulic systems and ancillary equipment as required for the Koepe production winder and double drum personnel-riding winder.

The Supplier shall be responsible for the design, supply and delivery of the whole works, including such work as may be required, but not specifically described here; and will supply all labour, equipment and consumables to facilitate the works.

In accordance with Newmont's commitments to building local and Indigenous capacity in the region, the tender evaluation will include a weighting for utilising local regional businesses in the Northern Territory.

Newmont reserve the right to combine this package and or parts of this package with any other project package.

Key Information to be included in the EOI:

Must provide resourcing information specific for the contract package.

Must provide details of a Quality Management system and records of previous performance.

Key Milestones:

Tenderers Release Date: 14.08.2020

Target Contract Award Date: 18.11.2020

Completion: TBA

Expression of Interest:

Contractors are invited to express an interest in this package by registering on the ICN Gateway on line platform. Please ensure your ICN company profile is up to date before registering your expression of interest.

EOI Closing Date:

07.08.2020
