Star Aluminium is an Australian owned and operated manufacturing company of height access safety solutions throughout Australia and internationally.

Summary

Star Aluminium is an Australian owned and operated business that has been innovating height access solutions since 1999.

We are one of Australia's leading aluminium fabrication

manufacturers offering a diverse range of height access products aimed at creating the safest and most reliable solutions for our clients.

Description

Star Aluminium is an Australian owned and operated manufacturing company of height access safety solutions throughout Australia and internationally.

Star Aluminium strives to achieve sustainable growth throughout consistently satisfying the diverse needs and expectations of our clients. Star Aluminium is ISO 9001 QMS accredited and are committed to the effective implementation of their QMS compliance standards in accordance to ISO 9001.

To achieve this objective, Star Aluminium:

- Provide solutions that meet or exceed the standards prescribed in relevant agreements, contracts, codes and statutory obligations
- Deliver added value to our clients by identifying, monitoring and responding to their needs, expectations and levels of satisfaction
- Set measurable targets and seek to continually improve the delivery of our services
- Continually review and improve the effectiveness of the Management System
- In providing quality services, we will embrace new ideas, technology and innovation. We will strive for continuous improvement, setting new benchmarks to maintain our strong reputation with the industry

Star Aluminium has been operating for over 20 years

providing solutions in both aluminium and steel fabrications with a range including:

- Work access platforms
- Custom made access platforms
- Truck access platforms
- Truck safety screens / barrier protection
- Crossover platforms
- Maintenance platforms
- Multi-level platforms
- Stairs
- Access ladders

And many more.

Star Aluminium invests heavily in research and development, striving to offer innovative solutions to our clients.

Some of the custom solutions we have designed and engineered for our clients include:

- Adjustable cantilever platform for an Australian logistics company manufactured and distributed to all depots throughout Australia.
- Bridging access platforms for a heavy vehicle manufacturer in Australia.

We pride ourselves on producing high quality and durable solutions manufactured to exceed the Australian Standards, and as an Australian manufacturer we provide consultation, engineering, manufacturing, delivery and installation, with a goal of offering a solution to every access requirement.

- > Elphinstone
- > Wagstaff Piling
- > Caltex Petroleum
- > Bucher Municipal
- > Toll Shipping
- > Roy Hill
- > Rio Tinto
- > BHP Billiton
- > FORM 700
- > WesTrac
- > Northline
- > Mainfreight
- > VIP Packaging
- > Viscount
- > AE Smith & Son

Previous Significant Projects

2019

West Gate Tunnel Project

\$150,000

Client: John Holland & CPB Contractors

Provided access solutions throughout the Melbourne & Benalla sites such as:

- Self levelling stairs
- Work platforms
- Truck access platforms
- Truck barrier protection guards
- Custom made products

2018

Maintenance Works 2018 - Current

\$500,000

Client: Bombardier Transportation

Provided various access solutions throughout the Bombardier site ranging from reworks on current platforms to brand new access platforms.

Bridging platforms & walkways were fabricated to allow safe use on two trains at once with full compliance to the Australian standards.

Tram specific access platforms running the full length of one tram was manufactured to allow safe operator use.
