Scaffolding Management Services was formed in Western Australia, 2001.

Since our inception, we have steadily expanded and changed our name to SMS Group Services. The name change was intended to reflect the diverse range of services we offer and the market sectors we deliver to. That market includes process plants, greenfield, brownfield and major construction, oil, gas, civil and commercial projects.

Summary

Over the years SMS has kept in touch with the ever-changing dynamics of the construction and mining industries, meeting new issues and any market demands to provide qualified advice, impeccable service and innovative solutions with a strong emphasis on safety first.

We help identify problems, analyse issues, and work with and listen to our customers to deliver every requirement. SMS Group Services offers a full range of services including:

- Access Management (including scaffolding and rope access)
- Engineered access solutions (diagnosis and design)

- Shut Down Services (specialist labour and equipment)
- Confined Space Management Services
- Training Institute.

We aspire to continually improve our knowledge and services and set the benchmark in our industry, from our recruitment process and selection of our personnel, through to our rigorous safety management and compliance processes.

- > Operate though out Western Australia and NT
- > Full equipped Training Institute (RTO)
- > Site Vehicles, Buses, Cranes and Trucks
- > Material Handling Equipment - Forklifts and Manitou's
- > Site Offices and Portable building s & site Containers
- > Satellite storage facilities
- > IT solutions to support Scaffold and Formwork design

Accreditations

- > AS/NZS ISO 9001:2015
- > AS/NZS 4801 Compliant

Previous Significant Projects

2019

Tianqui Lithium Project
\$10,000,000

Client: MSP Engineering

Management of all aspects of the Scaffolding & Rigging contract providing supervision, personnel and scaffolding management systems.
Supplying upwards of 1800 tons of scaffolding equipment with the ongoing support of our skilled casual labour, onsite project management and administration personnel.

2013

Esperance Port Authority- Shiploader Upgrade
\$400,000

Client: Esperance Port Authority

Scope of Project:
SMS provides ongoing access and sentry services to the Esperance Port Authority (EPA).
SMS was contracted in January and April of 2015 to conduct Conveyor Refurbishment works for EPA. This project had two major pre-requisites:
* The limitations of the structure only allowed for a scaffold dead weight of 400kg per linear metre; and
* The structure had to be craneable due to time and weather constraints.
SMS engineered a craneable alloy scaffold comprising of three Pcs.

2015

Karara Mining Ltd Maintenance and shut down services
\$25,000,000

Client: Karara Mining Ltd

Since 2015 SMS Group Services have also been contracted to supply Confined Space Management services to the plant during all planned shutdowns and emergency breakdowns, including the supply of supervisors and sentry staff.

2011

Karara Mining Ltd Construction phase
\$5,000,000

Client: Karara Mining Ltd

Since August 2011, SMS Group Services have been re-awarded on three occasions a contract to provide complete scaffolding packages for the operation phase of a plant run by Karara Mining.
Our project management team supplied up to 2000 tonnes of scaffolding equipment, in addition to 130 - 170 shutdown personnel resourced on an as-needed basis.

2007

Ravensthorpe Nickel Project - Construction and maintenance phases
\$15,000,000

Client: BHP Billiton

Scope of Project:
Management of all aspects of the Scaffolding & Rigging contract providing supervision, personnel and scaffolding management systems.
On completion of the construction phase of the project SMS was engaged to complete the scaffolding and access requirements for the site as well as sourcing the additional labour supply demands.
The site operations included the necessity for the supply of a fully functioning office facility, crew storage/gang boxes and scaffold store.
