Iron Bridge

Project Overview: B Operations Pty Ltd (IB Operations), as agent for the joint venture between FMG Magnetite Pty Ltd and Formosa Steel IB Pty Ltd, is developing a new magnetite me and associated infrastructure at its Iron Bridge site (Iron Bridge Magnetite Project). The Iron Bridge site comprises the North Star, Eastern Limb, Glacier Valley and West Star magnetite iron ore deposits located in the Pilbara region of Western Australia. The Iron Bridge Magnetite Project will include the execution of a process plant, non-process infrastructure, a slurry and return water pipelines, a raw water pipeline and port infrastructure to support 22 wintpa production. Delivery of first ore is expected in the first half of calendar year 2022. Package Title:		
West Star magnetite iron ore deposits located in the Pilbara region of Western Australia. The Iron Bridge Magnetite Project will include the execution of a process plant, non-process infrastructure, a slurry and return water pipelines, a raw water pipeline and port infrastructure to support 22 wmtpa production. Delivery of first ore is expected in the first half of calendar year 2022. Package Title: Provision of Ceramic Grinding Media Reference: NSC0043 At the time of publishing this invitation to register an interest, the Supply must include the provision of labour, materials, equipment and expertise to carry out the Provision of Ceramic Grinding Media. The Supply comply with Australian Standards. The Iron Bridge Magnetite Project, including this package NSC0043 Provision of Ceramic Grinding Media is subject to internal approvals. The procurement process or scope, may change at the IB Operations' election, including to accommodate project budget and time requirements. Expression of Interest [EOI]: B Operations invites expressions of interest (EOI) from capable and experienced contractors and suppliers, who are safety focused and price competitive for this package NSC0043 Provision Ceramic of Grinding Media Interested parties must register an EOI on the ironbridge.icn.org.au EOI Registrants are required to provide the following information as part of its EOI: a. an ICN Gateway company profile, current in all material respects; and b. completed Preliminary Prequalification Information. IB Operations will use the EOIs to improve its understanding of market capability and interest. Suitable EOI Registrants may be invited to submit a tender for this package NSC0043 Provision of Ceramic Grinding Media. EOI Closing Date: At the time of publishing this invitation to register an EOI, June 2021. Project Contact Officer: All communications in connection with this invitation to register an EOI for this package NSC0043 Provision of Ceramic Grinding Media, including clarification regarding this package NSC	Project Overview:	Magnetite Pty Ltd and Formosa Steel IB Pty Ltd, is developing a new magnetite mine and associated infrastructure at its Iron Bridge site (Iron Bridge Magnetite
