

## CHEVRON AUSTRALIA – OPERATIONS

**TITLE:** Transformer Maintenance Services (EOI 33)

**DESCRIPTION:** Chevron Australia (Company) is seeking expressions of interest from Transformer Maintenance Service providers in support of Wheatstone Operations (Onslow and Wheatstone Platform) and Barrow Island (BWI) Assets (Gorgon Operations and WA Oil).

Transformer services include regular and scheduled onsite maintenance services to ensure operational availability and compliant management of a vast array of sized power and distribution transformers is maintained.

Transformer Maintenance Services scope of work includes (but not limited to):

- Oil filtration services, supply and refilling including dehydrating, degassing and particle removal transfer filtering of mainly Envirotemp FR3 and mineral oil;
- Specialist provider of major and minor on-site repair and refurbishment of transformers and applicable tap changer for services up to 132KV and rating of 150MVA;
- Design and install replacement or upgraded wiring and control systems;
- Dry Type Transformer maintenance and inspection;
- Vacuuming of new & overhaul Transformers; and
- Bushings, Gaskets, Bladder, Radiator replacement and repair

Applicants will be required to provide information addressing the following criteria:

- Details of licensed personnel;
- Details of equipment to provide the above services;
- Capability Assessment Statement of Transformer Service specific to Western Australia

**CONTACT:** Industry Capability Network of Western Australia – [www.icnwa.org.au/ContactUs.asp](http://www.icnwa.org.au/ContactUs.asp)

**Please Note: This is a request for specific expressions of interest. Service Providers will be considered for inclusion in the RFP if suitably qualified against this package.**
