ALTRAD SERVICES PTY LTD

Altrad Services has been providing innovative, safe and reliable industrial services to Australian industry since 2007 as Cape Australia Onshore Pty Ltd.

In 2017, we were acquired by Altrad, a global multi-services provider. Founded in 1985, the Altrad Group 42,000 workers globally, providing services in more than 50 countries.

Now under the Altrad banner, we work in partnership with our clients to build, protect and extend the life of their assets.

Summary

Altrad Services is a global multi-services delivering complete and innovative solutions, to the highest standards whilst providing a safe working environment for all stakeholders.

We offer a wide range of cost-driven integrated solutions covering Scaffolding, Rope Access, Insulation, Painting, Structural Remediation, Inspection, Passive Fire Protection for the Marine, Defence, Oil & Gas, Energy, Process and Mining sectors.

We are here to understand and safely exceed the expectations of our clients.

Altrad Services has the ability to provide multi skilled teams to undertake complex tasks across Australia. With more than 1,000 permanent employees plus access to a pool of regular casuals across the business, Altrad Services can meet planned and emergent base and peak load demands.

Description

SCAFFOLDING AND ALTERNATIVE ACCESS

Altrad Services is a supplier of scaffolding and alternative access services to both on and offshore environments and a full range of industrial sectors. The company uses its own access equipment, all manufactured to internationally recognised standards for safety and reliability.

With over 6,000 tonnes of access equipment, Altrad Services holds one of the largest stocks of access equipment in Australia. Service excellence is about more than just equipment. Our access teams are the best in the industry and constantly come up with new, innovative

and more cost-effective access solutions. This brings significant time and cost savings to our clients, while at the same time increasing levels of safety. It also means we can meet the supply needs of any project, in any location.

IN-HOUSE DESIGN EXPERTISE

Altrad Services' highly qualified engineers will draw up design schemes specific to each project and to each client's own safety standards, all in accordance with international requirements. Our intelligent systems provide safe and highly flexible workforce access. Where

ALTRAD SERVICES PTY LTD

required, they can be designed for access systems, reducing site congestion as well as removal and replacement downtime.

ROPE ACCESS

Altrad Services has developed unrivalled expertise in rope access and abseiling techniques - both on and offshore. We can provide everything a customer needs to undertake work in the most restrictive areas. The systems we use are quick to mobilise and de-mobilise, reducing labour costs by up to 30% and offer a safe, flexible and cost-effective alternative to traditional access methods. We provide a variety of inspection, installation, repair and maintenance services including architectural remedial work, structural/mechanical repairs, welding and boiler-making, wear plate change-out, corrosion protection, insulation, blasting, equipment recovery and industrial cleaning. Altrad Services Ropes Access division is one of the largest provider of Ropes Access services across Australia with over 100 technicians engaged permanently and a labour pool in excess of 400 nationally. The organisation has full company membership of IRATA, the international industry standard in rope access services.

INSULATION

Altrad Services has over 50 years' experience providing insulation services across the globe. We offer the full scope of insulation services and can manage the entire process, from fabrication to supply, installation and maintenance. Insulation types include thermal, acoustic, cryogenic (including live line cryogenic), fire

protection insulation, metallic / non-metallic cladding and sheet metal fabrication and asbestos management and removal.

COATINGS

Altrad Services provides a complete range of specialist coatings and fireproofing services across a variety of structures in LNG plants, petrochemical plants, refineries, power stations, process plants, marine / ship fabrication yards and offshore installations. We provide surface protection and the application of coatings to prevent corrosion of bare surfaces or those to be insulated and clad.

INDUSTRIAL CLEANING

Altrad Services offers Industrial cleaning using modern, well-equipped vehicles and equipment including vacuum loading trucks, online vessel cleaning units, heat exchanger cleaning equipment, high & ultra-high pressure blasting equipment. Our highly specialised team can undertake a wide range of cleaning services, including vacuum loading, controlled waste removal, high and ultra-high pressure water jetting, pipe descaling, internal tank cleaning, and online vessel cleaning and de-sanding.

TRAINING

Altrad Services maintains Registered Training Organisation status, to provide training and assessment services for Worksafe Accredited and High Risk Licences for a variety of skills, including scaffolding, confined space entry, working at heights, dogging, rigging, safety awareness training, IRATA rope access, asbestos removal.

Previous Significant Projects

Client: ASC Shipbuilding (subsidiary of BAE)

Project: BAE Hunter Class Frigate Project Blast and Paint

Year: 2020

Value: \$9,000,000

Description: 2020-2024

Provision of blast and paint services for the Hunter Class Frigate Program's prototype phase. At Osborne Naval Shipyard - South, Altrad Services will blast and paint the steel plate that will be used to manufacture the five representative ship blocks, one of the key outputs of prototyping, before painting the blocks in the new, state-of-the-art blast and paint facility.

Client: Trace JV

Project: INPEX Ichthys Onshore LNG Facility Maintenance

Year: 2018

Value: \$7,000,000

Description: 2018-now

As part of a panel of subcontractor, maintenance activities including scaffolding, painting and blasting, insulation and rope access works on a call-off basis at the Ichthys Onshore LNG processing facility. Have also been continuously involved in the Coating and Insulation (C&I) Rectification campaign work since October 2019.

ALTRAD SERVICES PTY LTD

Client: JKC Australia LNG Pty Ltd

Project: Inpex Ichthys Onshore LNG Facility Construction

Year: 2017

Value: \$450,000,000

Description: 201-2018

Miscellaneous painting and insulation works comprising the supply of manpower, equipment, materials, tools and consumables during the Construction of the Ichthys Onshore LNG processing facilities.

Client: Thales Australia Limited

Project: Thales Darwin Naval Base Industrial Maintenance Services

Year: 2017

Value: \$5,000,000

Description: 2017-2021

Industrial maintenance activities including scaffolding, painting and blasting, insulation, CSE Management, Sullage Services, Tank Cleaning, HPW cleaning services at the operational site.

ALTRAD SERVICES PTY LTD

Client: Woodside

Project: Woodside Karratha Life Extension

Year: 2015

Value: \$350,000,000

Description: 2015-now

Core services provided by the 50/50 joint venture UGL at the Karratha Gas Plant are Access (scaffolding and rope access), Fire protection application, Blasting and painting, Cladding and insulation, Electrical and instrumentation, Mechanical, structural and piping (2015-2022).

Client: Bechtel

Project: Chevron Wheatstone LNG Onshore

Year: 2014

Value: \$1,000,000,000

Description: 2014-2019

Painting, insulation, fireproofing, scaffolding services and rope access during the construction of Chevron's Wheatstone onshore LNG plant.

ALTRAD SERVICES PTY LTD

Client: Alcoa

Project: Alcoa Refineries Multi-Discipline Services

Year: 2013

Value: \$40,000,000

Description: 2013-now

Multi-disciplined maintenance services including scaffolding, Rope Access, painting and blasting, insulation, cladding, asbestos removal and mechanical works at three refineries (Wagerup, Pinjarra and Kwinana) (2013-2020).

Client: Australian Submarine Corporation Pty Ltd (ASC)

Project: ASC Sullage and Sentry Services

Year: 2013

Value: \$3,000,000

Description: 2013-2021

Personnel, equipment and related services to conduct sullage and spotting services at the ASC West Henderson and Garden Island facilities.

ALTRAD SERVICES PTY LTD

Client: Chevron / CKJV

Project: Chevron Gorgon Project Barrow Island

Year: 2012

Value: \$900,000,000

Description: 2012-2018

Scaffolding, Insulation, Fireproofing for all project requirements during the construction phase of the plant.

Then awarded the post construction scopes for thermal and acoustic insulation including Rope Access.

Client: Australian Submarine Corporation Pty Ltd (ASC)

Project: ASC Painting and Blasting

Year: 2008

Value: \$3,000,000

Description: 2008-2022

Painting and Blasting services at the ASC West Henderson and Garden Island facilities.

ALTRAD SERVICES PTY LTD

Client: BHP Billiton

Project: Olympic Dam Expansion

Year: 2008

Value: \$90,000,000

Description: 2008-2020

Scaffolding, Insulation, Rope access (mechanical and non-mechanical) and Training at the Olympic Dam mine.
