Project Title: Snowy 2.0 – Future Generation Joint Venture

Project Description: Salini Impregilo, Clough and Lane trading as Future Generation Joint Venture (Future Gen) is a main contractor of Snowy 2.0 EPC Project. The Project is a pumped hydro project that will increase the generation capacity of the Snowy Mountains Scheme by up to 2,000MW and at full capacity will provide approximately 350,000MW/h of energy storage. The project includes all activities associated with the requirements for the Snowy 2.0 Pumped Hydro-electric Scheme.

Opportunity Title: Future Generation Joint Venture (FGJV) would like to engage a company with proven, project experience of, Fire Suppression System Commissioning and Maintenance Services Site wide for the Snowy Hydro 2.0 Project.

Opportunity Description: The Subcontractor is required to submit its best proposal in a detailed schedule of rates for the execution of the following scope of work:

Fire Suppression System Commissioning and Maintenance Services sites across the Project:

The contractor shall deliver the following -
Commissioning and/or Regular Maintenance of Fire Suppression Systems for all heavy FGJV
Plant and trucks, including but not limited to: Tunnel Boring Machines, Multi Service Vehicles, Cranes, Excavators, Wheel Loaders, Agitator Concrete Trucks, Skid Steers, Backhoes, Graders, Dozers, Forklifts, Telehandlers, Crusher and Screeners, Prime Movers etc.

- Installation of new Fire Suppression Systems for FGJV plant.
- Supply, disposal and/or recharging of Fire Extinguishers
- Preparation of Fire Risk Assessments and Compliance Testing
- Supply and Delivery of maintenance parts for the Fire Suppression Systems.

• Certification and Tagging for Fire Suppression Systems
Subcontractor shall be capable of commissioning and maintaining a range of Fire Suppression.

System types from the following suppliers, including but not limited to:

- Fogmaker
- Chubb
- Tec Fire Services.
- Reaction Fire Suppression
- Wormald

- Amerex
- Muster
- Aegis
- AF-X
- Qtec
- Stat-X

An additional 15% of supply shall be provided for Fire Suppression maintenance parts. The Subcontractor shall be responsible for the supply of tools for activities included within this Scope of Works. A maintenance plan shall be developed by the Subcontractor and shared with the Contractor, to manage all FGJV fire suppression systems on site. Note typical maintenance frequencies occur every six or twelve months. Personnel mobilisation and demobilisation to be included within the schedule of rates. The Subcontractor shall also be responsible for the supply of their own Mine Spec Light Vehicles. All vehicles entering site shall be equipped with, at minimum, an In Vehicle Monitoring System (IVMS), a Mounted Flag Pole, a Rotating Amber Beacon, a Reverse Squawker, and a First Aid Kit. All works carried out within the Scope of Works shall be conducted in accordance with Australian Standards. A list of FGJV plant with Fire Suppression Systems currently onsite will be provided during the tender.

Requirements:

FG JV requires Vendor:

- to provide evidence of similar experience in the Business Industry
- to provide evidence of the required government or industry certifications, licenses, associations and/or insurances to deliver the opportunity.
- to comply with all Safety and Environmental Management requirements for the Project. Site Specific Environmental Management Plans
- to demonstrate an exemplary safety record and a documented management system for tracking safety performance
- to be financially viable and can demonstrate commercial value.
- to demonstrate a strong commitment to training and retaining a local workforce
- to have an excellent track record in employing and progressing the careers of Indigenous people
- to progressively finding ways to develop the careers of women, veterans, and people with disabilities.
- Treat the environment they are working in with respect and consideration.

General Information:

FGJV will consider all ICN Registrations where:

- The business demonstrates through their response a clear capability against the key requirements.
- The business completes a response to all Future Gen questions and/or Future Gen documentation
- The businesses ICN profile is up to date and complete.
- The registration is complete prior to any closing date.
- The business operates in Australia and is a registered Australian business.

Local & Regional Content:

FGJV strongly encourages businesses who have head offices and/or dedicated premises with the appropriate Local Government approvals from the following regions:

- Snowy Monaro Regional Council Local Government Area.
- Snowy Valleys Council Local Government Area.
- Furthermore, Future Gen strongly encourages Aboriginal and Torres Strait Islander businesses to submit applications.

Notes:

FGJV will obtain ongoing reporting from ICN on a regular basis.

FGJV will review all registrations, noting that any incomplete registration will be excluded from consideration.

Further involvement may range from a request for a follow up meeting; request to prequalify, through to request for tender.

Submitting a registration of interest does not guarantee that the supplier will be selected for prequalification or tender opportunities.
