Mechtric Pty Ltd

Supply, assembly and manufacture of sirens, electronic sounders, beacons, horns, bells, manual call points, wide area warning systems, status lights, traffic lights, aircraft warning lights, electric motors, gear reducers, contactors, overload relays, motor protection relays, circuit breakers, switch disconnectors, cam switches, fuse holders, surge protection devices, earth leakage relays, multi-function meters, generator controls, auto transfer switch controllers, level controls, float switches, variable speed drives, soft starters, PLC's, operator panels, pushbuttons and selector switches, temperature controllers, electrical enclosures, junction boxes, terminals, level controls, power factor correction and harmonic mitigation, energy metering.

Summary

Established in 1964, and 100% Australian owned, Mechtric is a specialist distributor, systems integrator and manufacture of industrial automation, motor control, industrial drives and signaling products.

Mechtric are authorised distributors for world class brands including Lovato Electric, Delta Electronics, SITI, E2S, Sirena, Clifford & Snell, Data Logic and many others, all backed up with the knowledge and

experience of our technicians and customer service team. With offices and warehouses in five states and inventory of more than 10000 SKU's, we aim to be your trusted supply and solutions partner.

Our services include in-house product customisation, construction of motor control and automation panels, and PLC programming.

Description

Supply, assembly and manufacture of sirens, electronic sounders, beacons, horns, bells, manual call points, wide area warning systems, status lights, traffic lights, aircraft warning lights, electric motors, gear reducers, contactors, overload relays, motor protection relays, circuit breakers, switch disconnectors, cam switches, fuse holders, surge protection devices, earth

leakage relays, multi-function meters, generator controls, auto transfer switch controllers, level controls, float switches, variable speed drives, soft starters, PLC's, operator panels, pushbuttons and selector switches, temperature controllers, electrical enclosures, junction boxes, terminals, level controls,

Mechtric Pty Ltd

power factor correction and harmonic mitigation,
energy metering. Systems integration.

Industries Served

- Clean Energy
- Defence
- Manufacturing
- Mining
- Oil, Gas & Energy
- Retail, Trade and Other Services
- Water

Facilities & Equipment

- 40T press
- mechanical assembly workshop
- electrical assembly workshop

Products & Services

- Audible and visual signalling equipment.
- Wide area warning systems.
- Variable speed drives.
- Soft starters.
- Gear reducers.
- Automation products

Major Clients

- Woodside Energy
- BHP-Billiton
- Alcoa
- Worsley
- BP Refinery
- BAE Systems
- SANTOS
- Parmalat
- Pacific Salt
- Trelleborg Marine Systems
- Exxon Mobile

Previous Significant Projects

Client: Woodside Energy

Project: Woodside LNG4

Year: 2002

Value: \$200,000

Description: Supply of Explosion proof beacons, sounders and manual call points, push button stations
