Scope of Work:	<p>The scope of work is for the Provision of Solids Control and Cutting Handling Rental / Services, consisting of but not limited to the following specialised requirements:</p> <ul style="list-style-type: none"> (i) Provision of mud conditioning equipment, including centrifuges and pumps, complete with Ex Zone 1 hazardous area control panels; (ii) Provision of cuttings drying and conveyance systems, complete with Ex Zone 1 hazardous area control panels and emergency stop functionality; (iii) Provision of auxiliary equipment such as air-operated diaphragm pumps, HP washers and vacuum units; and (iv) Provision of qualified and experienced solids control engineers and the generation of daily reports. <p>Estimated Award is Q1 2022.</p>
Objectives:	The main objectives for this source of interest and information are to enable Santos Ltd to identify suitable suppliers and gather the latest market information on solids control and cutting handling rental / services that conform to the technical requirements identified in the scope of work.

Project Registration

Santos is committed to ensuring Australian Industry full, fair and reasonable opportunity to participate in the Barossa Project. Expressions of Interest are invited from contractors and suppliers with the relevant capability and capacity to undertake the scope of work.

This is a request for specific expressions of interest. Contractors and suppliers will be considered for prequalification and tender if suitably qualified against this package.

Note that an important part of the project registration process is to register an Expression of Interest at the correct Scope level.

Scope level definition:

Full scope: Able to produce / supply all of the package.

Partial scope: Able to produce / supply one or more of the sub-packages.

All registrations are to be completed via ICN Gateway BarossaOffshore.icn.org.au. Please contact the ICNNT if registration assistance is required. Contact details: (08) 8922 9422 or admin@icnnt.org.au.
