WILSON SECURITY PTY LTD

As one of the leading security companies, we provide security solutions for clients of every size and industry across Australia. Offering a truly integrated security solution, we provide clients with expert advice and structure on how to successfully and efficiently manage their security requirements, then design and implement an effective and sustainable security solution that is tailored to a specific business or operational environment - delivered through either, or a combination of, manpower and technology based solutions.

Our extensive national footprint enables us to deliver consistent security outcomes across multi-state contracts. We maintain fully self-sufficient state management and operations teams in each state and territory, supported by a national management structure capable of coordinating responses to widespread issues.

Summary

As a fully integrated security services provider, Wilson Security is focused on service innovation and leading technology advancements - designed and validated through a risk-based approach.

We offer a truly integrated security solution to provide specialist advice and services that covers:

Corporate Risk Consultancy -delivering expert advice and guidance on security risk, business continuity and emergency management

Manpower Solutions - that includes static guards, mobile patrols, alarm response and specialist security roles

Technology Solutions - Design, implementation and maintenance of security technology solutions.

Our Reach

We provide security solutions to businesses Australia wide with office

Description

With over 6,500 highly trained security personnel, a 24/7 National Operations Centre and a national fleet of patrol vehicles equipped with Australia's most advanced patrols and alarm response system, Wilson Security can deliver comprehensive and efficient solutions to suit any organisation.

Our operations cover all of Australia and New Zealand, where our local teams deliver specialist security guarding, mobile patrols, alarm response, paramedical, nursing, testing/screening, design, implementation and ongoing maintenance of security technology systems and emergency management services across a broad range of industry sectors, including:

- Critical Infrastructure
- Government
- Defence
- Education
- Finance & Banking
- Commercial Property & Retail
- Health
- Resources.
- Utilities

This level of diversity within our client base allows for cross-pollination of knowledge within our operational and management teams, which challenge industry norms and driving innovation through cross industry intelligence.

Wilson Security is the only national security company with its own fleet of security patrol vehicles.

Security Technology
Partnering with major national and internationally recognised global technology specialists, Wilson Security's integrated technological offerings deliver state of the art security solutions that are both flexible and scalable in design, whilst providing site specific

tailored security considerations applicable to your needs.

We recognise our most important asset is our people, and we continually invest in training, development, safety, support and recognition programs, resulting in the highest quality service.

Security services are delivered in compliance with relevant laws and Australian standards. We hold current certifications to ISO 9001, ISO 45001 & AS 4801 and ISO 14001, we are also accredited as a Registered Training Organisation.

A proud history - a key strength of Wilson Security lies in being part of the Wilson Group. For over 50 years, the success of Wilson has been underpinned by superior performance and the strength of our relationships. Building on our core strengths of outstanding service, corporate stability and experienced, specialist staff, we have continued to grow by focusing on what we do best - providing innovative and integrated services across the security, access control technology and parking sectors.

Our extensive national footprint enables us to deliver consistent security outcomes across multi-state contracts. We maintain fully self-sufficient state management and operations teams in each state and territory, supported by a national management structure capable of coordinating responses to widespread issues.

24 / 7 National Operations Centres

Our operational capability is supported by our 24/7 National Operations Centre (NOC). Located at our Essendon Fields corporate office, with back up Operations Centres in Western Australia and New Zealand, the National Operations Centre (NOC) provides centralised operational support and coordination, including

WILSON SECURITY PTY LTD

emergency back-up and support for all client sites to ensure the safety of our personnel and the security of our clients' assets.
