

CHEVRON AUSTRALIA OPERATIONS

TITLE: **Mainland Transport Services (ID125)**

DESCRIPTION: Chevron Australia is seeking expressions of interest from capable Transport Service Providers (TSP) with a demonstrated capability in providing safe, reliable, and efficient transportation operations, equipment, and management of the services as set out below in support of Company operations in Western Australia.

Operations shall primarily take place at Company-nominated facilities in the following locations:

- Greater Perth region of Western Australia;
 - Hazelmere
 - Various Company nominated business partners
- North West Pilbara region of Western Australia;
 - Karratha
 - Dampier
 - Onslow
- Interstate movement in Australia.

The requirement for the Services will include but not be limited to:

- Mainland Linehaul Road Transportation Services and Management;
 - Maintain and have available all necessary transportation assets and personnel requirements to meet the pre-determined Required on Site (ROS) dates.
 - Ensure all scheduling and planning activities involving freight movements are performed in accordance with Company's freight profile.
 - Review and implement innovative solutions in reducing Company's financial exposure and waste associated with Hot Shot and unscheduled/unplanned movements.
- Mainland Local Courier Transportation Services and Management;
 - Collect/deliver material from a Company-nominated origin and deliver/collect via road to a Company-nominated destination whilst ensuring visibility and adherence with agreed Company service levels.
 - Collect material from Company nominated origin and deliver to Company nominated air freight provider.
- Provide a range of technological solutions that enable full transparency and data to monitor and report on safe, reliable, and efficient delivery of services.

- Preparation, treatment, and inspection of assets to meet minimum expectations of Chevron Quarantine Management System (QMS) where applicable.
- Provision of various 3rd party services to support daily operations.
- Actively supporting Company commitment to achieving local content objectives.
- Demonstrated organisational alignment and commitment to Company Health, Safety, Environment and Quality (HSEQ) objectives including; Human Factors.

Service Providers shall provide:

- Company profile;
- Company experience in providing similar services;
- Proposed method of work for meeting the specified scope items above;
- Proposed organizational structure;
- Proposed commercial models for consideration;
- Current and proposed technology used in provision of service with focus on customer integration experience/expertise and measurement of data quality;
- Strategy on Service provider commitment to Energy Transition.
