WMP-CON-251, Design and Construction of Airport Fuel Facility

Package Summary

OZ Minerals Musgrave Operations Pty Ltd requires the services of a suitably qualified and resourced contractor to design, construct and commission a new airport fuel facility for the West Musgrave Project (WMP). Key areas of scope can be summarised below:

1. Design, construct and commission a new Jet A1 fuel facility incorporating storage tank/s and dispensing equipment.
2. Associated safety systems including fire suppression and eye wash / deluge shower (if required).
3. Supply of all off-site and on-site labour, materials and equipment to complete the works including supervision, tools, plant / machinery, site survey, testing, reporting and inspection services.

Specific Scope of Works

Design, supply, transportation, installation and commissioning of an Airport Fuel Facility to support the future West Musgrave Airport operations including, but not limited to;

- o Storage in the order of 110kL to supply Jet A1 fuel to a single aircraft parking bay to support refuelling of A320, E190, F100 and DH8D aircraft types.
- o Coordination with OZ Mineral's Dangerous Goods Consultant. The scope will include the design and construction of a suitable fire suppression system/s.
- o Safety in design, including identification and delivery of engineering controls for safety systems, jet blast, manual handling and determine the requirement for deluge shower and eye wash installation.
- o Preparation of an operational manual including a facility asset management plan.
- o Supply, transportation, and installation of all necessary components and connection to nominated electrical and water supply points.
- o Commissioning, including the provision (and disposal if and as required) of Jet A1 sufficient to complete all necessary testing to enable aircraft refuelling in accordance with relevant JIG standards.

Next Steps

On the receipt of EOI's, OZ Minerals will review and on short-listing, formally advise each successful contractor/supplier that they will be invited to participate in a formal Contract Tender process (RFT).

OZ Minerals will publish Request for Tender (RFT) documents to successful contractor/ suppliers in July 2022, with contract award to follow the conclusion of the tender process.

A modern mining company

The West Musgrave Project is subject to internal OZ Minerals and external approvals. A final investment decision is expected in 2022. Consequently, timing, procurement strategy and/or scope of works, may change at the discretion of OZ Minerals.

Submission of Expression of Interest (EOI)

OZ Minerals invites capable and experienced Contractor/Suppliers, who align with our '[OZ Way](#)' of working to register their EOI, clearly identifying their capability to execute the scope herein. OZ Minerals will use the EOIs to improve our understanding of market capability and interest. Suitable Registrants may subsequently be invited to submit a tender for this package.

Please express your interest by completing the [West Musgrave Supplier Registration](#). EOIs without a completed West Musgrave Supplier Registration will not be considered.

Please email WMPCCommercial@ozminerals.com should you have any questions.
