

Barossa Offshore Project

Package No: **Not Applicable**

Package Name: **UTA Mudmat Fabrication**

Scope of Work: Manufacture and supply of Mudmats that serves as subsea foundation for the Umbilical Termination Assemblies (UTA) w/ umbilical.

The UTA mudmat is designed to support subsea UTA w/ umbilical and other accessories such as retrievable units and parking frames. Mudmat is fabricated from carbon steel and painted with coating for subsea application. Sufficient anodes (to be free issued by TFMC) are placed on the mudmat for protection against subsea corrosion.

Fabrication Tolerance: .X +/- 2.540mm
.XX +/- 1.524mm
.XXX +/- 0.762mm

Coating: Per NORSOK M-501 System 7 requirement

Beam size range: W12 x 87 lb/ft

W12 x 120 lb/ft

W6 x 25 lb/ft

Each assembly unit weight: Between 16 to 20 metric tons

Qty: 6 units of different sizes and configurations

- 03 x 9.5m x 4.3m x 4.8m (h)
- 02 x 11.5m x 4.3m x 3m (h)
- 01 x 7.4m x 4.3m x 4.65m (h)

Project Registration

Santos is committed to ensuring Australian Industry full, fair and reasonable opportunity to participate in the Barossa Offshore Project. Expressions of Interest are invited from contractors and suppliers with the relevant capability and capacity to undertake the scope of work.

This is a request for specific expressions of interest. Contractors and suppliers will be considered for prequalification and tender if suitably qualified against this package.

Note that an important part of the project registration process is to register an Expression of Interest at the correct Scope level.

Scope level definition:

Full scope: Able to produce / supply all of the package.

Partial scope: Able to produce / supply one or more of the sub-packages.

All registrations are to be completed via ICN Gateway BarossaOffshore.icn.org.au. Please contact the ICNNT if registration assistance is required. Contact details: (08) 8922 9422 or resources@icnnt.org.au.
