

**Date:** 25/08/2022

**Project Title:** Snowy 2.0 – Future Generation Joint Venture

**Project Description:** Salini Impregilo, Clough and Lane trading as Future Generation Joint Venture (Future Gen) is a main contractor of Snowy 2.0 EPC Project. The Project is a pumped hydro project that will increase the generation capacity of the Snowy Mountains Scheme by up to 2,000MW and at full capacity will provide approximately 350,000MW/h of energy storage. The project includes all activities associated with the requirements for the Snowy 2.0 Pumped Hydro-electric Scheme.

**Opportunity Title:** Future Generation Joint Venture (the Contractor) would like to engage a company with proven, project experience for Permanent Concrete Works (FRP) across all sites within the Snowy 2.0 project.

**Opportunity Description:** The vendor is required to state its interest for the execution of the following scope of works (but not limited to):

- Undertake concrete works (FRP) at Tantangara, Marica and Talbingo Sites for Shafts and Intake structures, including complex formwork and steel fixing for these structures, concrete slabs, and foundations on a large scale.
- Provision of steel and steel fixing Works (The Contractor might supply the Steel reinforcement subject to its confirmation)
- Erection of formwork (Supplied by the Contractor).
- Provision of pouring of concrete (RMC supplied by the Contractor) and final finish in accordance with the Project requirements.
- Liaise with the Contractor regarding the quantities of concrete and steel reinforcement that are required to complete the works.
- Provision of all necessary equipment in line with the HSE and Plant/equipment department requirements to do the works in a workmanlike manner.
- Provision of experienced underground and aboveground Project Managers, Safety, Supervisors, Operators and Labour to complete the works in a professional and timely manner and up to the Contractor's satisfaction.
- Comply with Australian legislation and statutory regulations.
- Assure that the works is completed in a manner that is compliant and shall satisfy the ODA and bushfire requirements.
- Complying at any time with all requirements relates to project in respect of Traffic Management System for transport of goods to the Contractor project site as per the regulation in force in Australia during the lifetime of the Contract.

- All items needed to be considered and built into the rates (including all project management and supervision costs)
- Preparation and submission daily progress reports, including progress resource, man-hours, event/delay logging, etc per activity with supporting photos. Training on the tool is available on request.
- Monthly reports covering several items, including but not limited to: Health and Safety, Environment, Issues and Opportunities, Quality and Commercial.
- Final work report including quantity, quality documents, pictures, etc.
- Noise and dust monitoring during construction to assure we respect the EIS limits constraints and Occupational Health & Safety requirements. The Vendor is responsible to review this and manage the works accordingly.

**Requirements:**

The Contractor requires the Vendor:

- To provide evidence of similar experience in the Business Industry
- To provide evidence of the required government or industry certifications, licenses, associations and/or insurances to deliver the opportunity.
- To comply with all Safety and Environmental Management requirements for the Project Site Specific Environmental Management Plans
- To demonstrate an exemplary safety record and a documented management system for tracking safety performance
- To be financially viable and can demonstrate commercial value.
- To demonstrate a strong commitment to training and retaining a local workforce
- To have an excellent track record in employing and progressing the careers of Indigenous people
- To progressively find ways to develop the careers of women, veterans, and people with disabilities.
- Treat the environment they are working in with respect and consideration.

**General Information:**

The Contractor will consider all ICN Registrations where:

- The business demonstrates through their response a clear capability against the key requirements.
- The business completes a response to all the Contractor questions and/or the Contractor documentation
- The businesses ICN profile is up to date and complete.
- The registration is complete prior to any closing date.
- The business operates in Australia and is a registered Australian business.

## PROJECT EXPRESSION OF INTEREST

**Local & Regional Content:** The Contractor strongly encourages businesses who have head offices and/or dedicated premises with the appropriate Local Government approvals from the following regions:

- Snowy Monaro Regional Council Local Government Area.
- Snowy Valleys Council Local Government Area.
- Furthermore, Future Gen strongly encourages Aboriginal and Torres Strait Islander businesses to submit applications.

**Notes:**

The Contractor will obtain ongoing reporting from ICN on a regular basis.

The Contractor will review all registrations, noting that any incomplete registration will be excluded from consideration.

Further involvement may range from a request for a follow up meeting; request to prequalify, through to request for tender.

Submitting a registration of interest does not guarantee that the supplier will be selected for prequalification or tender opportunities.
