

## CHEVRON AUSTRALIA OPERATIONS

**TITLE:** **Waste Management Services (ID009964)**

**DESCRIPTION:** Chevron Australia is seeking expressions of interest from service providers able to provide **all or part of** the waste management services required to support of Chevron Australia Upstream Operations in Onslow, Barrow Island and/or other locations in mainland Western Australia.

The types of wastes generated by these activities are expected to include:

- Solid waste (both hazardous & non-hazardous) e.g. putrescible, construction and demolition, soils, medical and recyclable wastes.
- Liquid waste (both hazardous & non-hazardous) e.g. sludges, septage, chemical, aqueous and hydrocarbon wastes.

Contractor shall provide waste management services including collection, processing, transport, disposal, and quarantine. The Scope of work includes (but not limited to):

- **Waste Collection**  
Provision of personnel, waste vehicles, receptacles, equipment, systems, and processes required for the collection of waste.
- **Waste Processing**  
Operation of onsite waste transfer facilities including provision of necessary personnel, equipment, and systems.
- **Waste Transportation**  
Provision of all necessary personnel, receptacles, vehicles, equipment, systems, and processes required to transport waste to Chevron approved disposal facilities.
- **Waste Disposal**  
Disposal of waste at service provider or third party owned Chevron approved disposal facilities.
- **Quarantine**  
Provision of quarantine, including remediation, services to ensure that waste assets meet Chevron's Barrow Island Quarantine Requirements.

Service provider response shall include:

- Company profile.
- Service provider experience in providing similar services.
- Service provider strategy for Waste Reduction.
- Service provider strategy for Energy Transition.
- Proposed method of work for meeting the scope items above.

- Proposed commercial models for consideration.
- Current and proposed technology used in provision of service with focus on automated data capture, data quality management, customer integration experience/expertise and reporting.

**Note:** Scope does not include services for Chevron Australia Downstream.
