

CHEVRON AUSTRALIA

WA Oil Decommissioning

TITLE: Flush & Clean - Barrow Tanker Loading Line (ID010952)

DESCRIPTION: Chevron Australia is seeking expressions of interest from service providers able to provide Flushing & Cleaning of Barrow Tanker Loading Line (BTLL) in support of WA Oil Decommissioning Program.

The BTLL is a ~10 km steel submarine pipeline (20" NPS) that delivers product from onshore storage tanks to the BTLL end manifold and tanker loading hose.

Scope of work includes (but not limited to):

- Flushing and cleaning methodology development (aligned with final produce offtake)
- Flushing and cleaning procedure development
- Flushing and cleaning execution
 - Marine and land-based spreads
 - Fluid and waste management

Service Provider responses shall include:

- Company profile
- Technical expertise, capability and demonstrated track record with references for similar programs in the Northwest of Western Australia
- An overview of recent (within the past three years) flushing and cleaning scopes of work that service provider has conducted on remote sites. Please include project overview and schedule at a minimum
- Proposed method of work for meeting the scope
- Proposed commercial models for consideration
- Copy of committed work schedule from 2025 to 2028

Notes for Service provider consideration:

- The scope of work is located on Barrow Island and is;
 - subject to a Quarantine Management Plan and all materials/equipment supplied must be certified to this plan
 - located in a Cyclone Region (November to April)

CONTACT: Industry Capability Network of Western Australia – www.icnwa.org.au/ContactUs.asp

Please Note: This is a request for specific expressions of interest. Service Providers will be considered for inclusion in the RFP if suitably qualified against this package.
