

## **CHEVRON AUSTRALIA**

### **WA Oil Decommissioning**

**TITLE:** Flushing & Cleaning - Pipelines & Facilities (ID010951)

**DESCRIPTION:** Chevron Australia is seeking expressions of interest from service providers able to provide Flushing & Cleaning of Pipelines & Facilities in support of WA Oil Decommissioning Program.

The WA Oil asset includes >1500km of above ground flowlines/pipelines and associated production facilities. A brief description is below:

- Flowlines from wells to separator stations (GRE and CS, 40mm – 80mm NPS)
- Bulk lines from separator stations to central processing (GRE and CS, 50mm – 250mm NPS)
- Waterflood network lines (GRE, 40mm – 200mm NPS)
- Low Pressure Gas lines (CS, 50mm – 300mm NPS)
- High Pressure Gas lines (CS, 50mm – 150mm NPS)
- Onshore Shipping line (GRE, 200mm NPS)
- Multiple Separator Stations feeding into a Central Processing Facility (both containing degassers, tanks, pumps, piping, etc.)
- Produced Water storage tanks
- Product/Oil storage tanks

Scope of work includes (but not limited to):

- Flushing and cleaning methodology development
- Flushing and cleaning procedure development
- Flushing and cleaning execution
  - Equipment spreads
  - Fluid and waste management

Service Provider responses shall include:

- Company profile
- Technical expertise, capability and demonstrated track record with references for similar programs
- An overview of recent (within the past three years) flushing and cleaning scopes of work that service provider has conducted on remote sites. Please include project overview and schedule at a minimum
- Proposed method of work for meeting the scope
- Proposed commercial models for consideration
- Copy of committed work schedule from 2025 to 2028

Notes for Service provider consideration:

- The scope of work is located on Barrow Island and is;
  - subject to a Quarantine Management Plan and all materials/equipment supplied must be certified to this plan
  - located in a Cyclone Region (November to April)
