

CHEVRON AUSTRALIA

WA Oil Decommissioning

TITLE: Demolition Services (ID010955)

DESCRIPTION: Chevron Australia is seeking expressions of interest from service providers able to provide Demolition services in support of WA Oil Decommissioning Program.

The main asset components are:

- Wellheads
- Flowlines/Pipelines (>1500km, GRE and CS, 40mm - 300mm NPS)
- Separator Stations (vessels, tank, piping, pumps, bunds, etc.)
- Central Processing Facility (vessels, tank, piping, pumps, bunds, etc.)
- Produced Water Storage and Disposal Facilities (piping, pumps, bunds, etc.)
- Product/Oil Storage Facility (5x 200k bbl Terminal Tanks)
- Barrow Tanker Loading Line (~10km submarine pipeline)
- Waterflood Network and Injection Facilities
- Buildings (offices, warehouses, accommodation units, etc.)
- Central Power Station
- Electrical Distribution (overhead lines, on-ground cables, etc.)

Scope of work includes (but not limited to):

- Demolition/Removal methodology development
- Demolition/Removal procedure development
- Demolition/Removal execution
 - Equipment and resources
 - Waste processing and management

Service Provider responses shall include:

- Company profile
- Technical expertise, capability and demonstrated track record with references for similar programs
- An overview of recent (within the past three years) Demolition scopes of work that service provider has conducted on remote sites. Please include project overview and schedule at a minimum
- Proposed method of work for meeting the scope
- Proposed commercial models for consideration
- Copy of committed work schedule from 2025 to 2028

Notes for Service provider consideration:

- The scope of work is located on Barrow Island and is;
 - subject to a Quarantine Management Plan and all materials/equipment supplied must be certified to this plan
 - located in a Cyclone Region (November to April)
