

ABU OPERATIONS

TITLE: C1235662 – Fuel Supply Only EOI

DESCRIPTION: Chevron ABU (Company) is seeking expressions of interest for the provision of diesel product as part of its long term fuel supply considerations. The diesel product supply chain will predominantly be for the supply in support of Company's operations from a range of port locations within the North West of Western Australia.

Company's current Fuel Product supply chain model is depicted below:

Fuel Supply Chain - Current State

Scope of Fuel Product Supply:

The diesel product supply is required to support the Company's operations on Barrow Island (BWI) and within the North West region of Western Australia, including any additional Company major capital projects as may be required. Fuel supply volume over a 5 year period is forecast to be approximately 320 ML to 400ML. There is no guarantee of fuel volumes as it is a forecast only.

The prospective diesel product supplier is expected to furnish all management, supervision, labour, materials, loading, transportation, unloading, equipment, tools, consumables, and all other things necessary for the completion of the diesel product supply for Company's operations. The diesel product supply broadly includes the following:

- (1) Supply and delivery of diesel product to designated delivery points via multiple supply options including, but not limited to, truck, pipeline, bunker vessels or ship to ship;
- (2) Security of supply of diesel product with 24 hours per day, 7 days per week access to supply through multiple delivery options in Dampier and other locations as may be required; and
- (3) Diesel product to meet all relevant Australian Standard requirements.

The prospective supplier will be expected to have the capability to undertake these activities to ensure diesel product security of supply is maintained to Company's operations.

The prospective supplier will be expected to provide these services while adhering to Company's Health, Environment and Safety (HES) requirements.

Please Note:

EOI 22 – End to End Fuel Product Supply Chain Options has been closed and superceded by this EOI (C1235662) for Fuel Supply Only; as well as Barrow Island Fuel Distribution Services (C1111984); and Landing Craft Tank (LCT) Vessels Master Charter (C1107814).

This is a request for specific expressions of interest. Vendors and contractors will be considered for prequalification and / or tender if suitably qualified against this package.
