### Procurement Route

OZ Minerals Musgrave Operations Pty Ltd (**OZ Minerals**) requires the services of a suitably qualified and resourced company to undertake the engineering design, build, supply and implementation of an Avigilon CCTV solution for operation at its West Musgrave mine site (**Site**) to support Mineral Processing Plant (**MPP**) operations, Site operations and Site security.

### Requirement / Scope of Works

The scope of work includes:

- CCTV solution with redundant recording systems to provide 24x7 coverage.
- High density camera population across the MPP.
- Camera vision of the pits, dumps, crushers, vehicle, and roads etc and the power generation plant.
- Camera vision for security at the Living Hub, visitor centres and non-processing infrastructure (**NPI**).
- Viewing and analysis supported from the remote operations centre over the OZ Minerals backbone network, including Process Control System interfacing.
- Off-site FAT, packaging of cameras to free issue to other parties for physical installation
- On Site implementation of solution on the OZ Minerals site network and the Remote Operations Centre.
- An early small package relating to this tender will be required to support security video of the construction camps (outside and communal areas) before proceeding into a larger package of work.
- Automated analytics and vision decision making.
