EXPRESSION OF INTEREST

ILS Service Provider

ASC is seeking **Expressions of Interest (EOI)** from suppliers with the capacity and capability to provide: **Integrated Logistics Support (ILS) Resourcing and Capability Support.**

Requirements:

ASC would like to identify organisations that have ILS talent pools available at short notice that could be accessed to augment ASC's own Support System team. ASC is seeking flexibility that combines consulting 'as a service' and labor hire modes of engagement of skills sets such as:

1. Systems engineers with relevant skills and experience in support systems
2. Program and project planning resources with experience in project plans associated with integrated support plans and training Support
3. Life cycle cost analysis
4. Reliability and availability modelling
5. Commercial support with experience in Defence contracts relating to support systems.
6. General ILS Engineers with experience in RAM analysis (FMECA, RCM, LORA) and logistic support analysis including maintenance and operational task analysis, sparring analysis and training needs analysis.

All resources would need to be eligible for Defence clearances, work with export controlled technology, etc. and are expected to continue their own organisational human capital development plans to up-skill the workforce whilst supporting ASC.

Whilst ability to attend site at Osborne, South Australia is preferred, ASC is prepared to consider talent pools within Australia that could work remotely (when not role limiting and access to secure networks is required, etc.).

EOI Submission Requirements:

All supplier submissions in addition to completing the questionnaire for the EOI must submit a concise brief demonstrating:

- The supplier's capacity and capability to meet the project requirements,
- A high level overview of the personnel available to meet the above scope including a sample of resumes and;
- A high level understanding of Defence processes and procedures, in particular ASDEFCON.
- A schedule of rates for the proposed resources.

All suppliers that progress to the next phase will be subject to the ASC supplier qualification process including being required to enter into a Non-Disclosure Agreement and passing a cyber-security assessment that addresses Australian Signal Directorate's [Essential Eight Maturity Model | Cyber.gov.au](https://www.cyber.gov.au/essential-eight-maturity-model) to participate in the Request for Tender.

This EOI is an invitation to treat and must not be construed, interpreted, or relied upon, whether expressly or impliedly, as an offer capable of acceptance by any person, or as creating any form of contractual, quasi-contractual, restitutionary or promissory estoppel rights, or rights based upon similar legal or equitable grounds.

The respondents' participation in any stage of the EOI process, or in relation to any matter concerning the EOI, is at the respondents' sole risk, cost and expense. ASC will not be responsible for any costs or expenses incurred by any suppliers in preparation or lodgment of a response or taking part in the EOI process.

Please register your interest in respect of this project via the Industry Capability Network website at <https://gateway.icn.org.au/project/4038/asc-pty-ltd-supplier-capability-and-innovation-portal>

Registrations close 11:59pm (ACST) Wednesday 31st of May 2023.
