

Package Title:	Pioneering (Early Works) Camp Accommodation Supply, Install, Lease & Maintain
Package Ref:	EOIP 6502
Harmony Overview	Harmony is a 70-year-old mining company headquartered in South Africa and listed on the Johannesburg and New York stock exchanges. In December 2022, Harmony acquired 100% of the Eva Copper (“Eva Copper”) project, a near-term copper project in North-West Queensland, Australia. Harmony is updating the feasibility study and progressing front end engineering and design over the next 12-month period prior to a final investment decision (FID). Once FID is achieved construction is expected to take approximately 24 months.
Indigenous Communities:	Harmony is committed to developing a diverse workforce and inclusive work environment, which includes providing training and career opportunities to local residents of the communities in which we operate. The Eva Copper Project is located on the traditional land of the Kalkadoon People, and the Project is committed to hiring and training of Kalkadoon People. Subject to the technical capabilities, this criterion will be a key consideration in the shortlisting of vendors, release of future tenders, and award of any contracts.
Project Overview:	Eva Copper Mine Project (ECMP) is a multi-open pit sulphide and native copper mine producing a copper concentrate. The current feasibility assumes 170 million tonne of ore and 381 million tonnes of waste are mined from seven open pits. The copper concentrator will process copper concentrate through a conventional crushing, milling, gravity, and flotation plant, for the life-of-mine (LOM) duration.
Scoping details:	The ECMP requires approximately 50 early works accommodation beds on site to complete enabling works and accommodate workers required to construct the Project construction village. The Supplier will be required to supply, install, commission and lease for a period of 6 months a turn key pioneer camp, before decommissioning and removal from site.
Specific Requirements:	The selected Supplier is required to provide: <ul style="list-style-type: none"> a) A turnkey ultra-mobile or temporary camp solution; b) 50 rooms; c) Catering production, chiller and freezer storage and dining room facilities; d) Central and ancillary facilities such as gym, wet mess, ablutions and ice room. e) Utilities for the generation of power, treatment of sewage and processing and storage of potable water; f) Maintenance and utilities operations personnel to sustain the leased infrastructure; g) Display strong performance in regional sub-contracting, supply and employment strategies to maximise local opportunities for the Projects host Shire and surrounding regions. h) Work closely with ECMP and the Traditional Owners of the land, the Kalkadoon people to maximise opportunities for employment and training development. i) Comply with all the ECMP policies and regulatory approvals issued, such as the conditions set forth in Environmental Authority EMPL00899613 and its approval for ERA 63 – Sewage Treatment. j) Undertake the works in accordance with the ECMP Safety and Health Management System and all of its provisions in accordance with the Mining and Quarrying Safety and Health Act and Regulations. k) ECMP will consider the offer of consolidated infrastructure supply, install, lease and maintain along with the facilities catering and soft services supply as a Build Own Operate package.

<p>Expression of Interest (EOI):</p>	<p>Harmony invites expressions of interest (EOI) from capable and experienced contractors and suppliers, who demonstrate through their response a clear capability against the key requirements.</p> <p>We ask that you keep your expression of interest submission short, specifically addressing the following in your response:</p> <ul style="list-style-type: none"> a) General company information <ul style="list-style-type: none"> (i) ABN, Company name, Registered address (ii) Contact details (name, email, mobile) (iii) Alternate point of contact details (iv) Headquarter and office locations (v) Company financials (vi) Local and indigenous engagement policies (vii) Prior project information and capability statement (viii) Safety, Risk, Quality, and other accreditations b) Response based specifically to this Package of work: <ul style="list-style-type: none"> (i) Proof of capabilities (ii) Indicative lead times and delivery durations (iii) Identification of critical lead time sizes and recommendation of proposed size changes. List of readily available sizes. (iv) Potential sub-supplier requirements (v) Other information considered essential to supporting the Suppliers submission (vi) Harmony will refer to the EOIs to assist in gauging its understanding of market capability and interest. Suitable EOI Registrants may be invited to submit a tender for this package. c) Comply with the Projects Australian Industry Participation Plan (AIPP) requirements found here: https://www.industry.gov.au/sites/default/files/aip/eva_copper_mine_-_project_and_operations_phase_summary.pdf d) Display a Reconciliation Action Plan (RAP) and strong commitments to the employment and development of first nations people
<p>EOI Closing Date:</p>	<p>21/09/2023</p>
<p>Forecast Commencement:</p>	<p>At the time of publishing this invitation to register an EOI it is forecast the services will be required at the commencement of: Q1 2024</p>
<p>Project Contact Officer:</p>	<p>All communications in connection with this invitation to register an EOI for this package including clarification regarding this package or request for technical support in connection with the EOI or ICN Gateway, must be submitted to:</p> <p>Nimmi Pushparajan Procurement Engineering Specialist ICN Queensland M +61 (0) 410 816 445 E nimmi.pushparajan@icnqld.org.au</p>
<p>Project URL's:</p>	<p>Details of additional Project opportunities will be published on the ICN Gateway at Eva Copper Project.</p>
<p>Disclaimer:</p>	<p>The information contained in this invitation to register an EOI is indicative only and subject to change at Harmony's discretion. It is intended to provide a brief outline of the relevant Supply which may be required on the Project and should be read in conjunction with the Project Description on the ICN Gateway.</p>
