Security Management Services

Scope of Works/Services

Martinus is currently seeking support for the A2P Project site from a security services consultant who can provide expert advice and assistance in the following areas:

1. Preparation of a Security Management Plan: This plan will serve as a sub-plan of the Project Safety Management Plan and must comply with the requirements set forth by RSNL and WHS. It is crucial that the Security Management Plan is comprehensive and addresses all necessary aspects.
2. Utilization of the Project Health and Safety/Security Risk Register: The Security Management Plan must be based on the risks identified and recorded in the Project's health and safety/security risk register. This register will be developed by the consultant in collaboration with the project team.
3. Mitigation of Security Threats: The Security Management Plan must effectively address all potential security threats to the Project and the surrounding community impacted by Martinus activities. It is of utmost importance that these risks are managed in a safe manner, adhering to the principle of So Far as Is Reasonably Practicable (SFAIRP).

We are looking for a highly qualified consultant who can ensure the safety and security of our Project and the community.

Location of Works

Works will be taken place along the Albury to Parkes section of the Inland rail corridor.
