<b>2. INDICATIVE SCOPE OF WORK</b>	
<b>Package Description</b>	<p><b>Overview</b></p> <p><i>Saipem Australia Pty Ltd and Clough Projects Australia Pty Ltd Joint Venture (herein referred to as the "CONTRACTOR") has reached an agreement with Perdaman Chemicals and Fertilisers Pty Ltd (herein referred to as the "OWNER") for the Engineering, Procurement, Construction and Commissioning of the BURRUP UREA PROJECT.</i></p> <p><i>Perdaman Chemicals and Fertilisers Pty Ltd (OWNER) is focused on the development of the Perdaman Project which shall be the world's largest gas stream ammonia-urea plant with a production capacity of 2.14 MMTPA granular urea. The plant is located within the Burrup Strategic Industrial Area, Burrup Peninsula, approximately 10 km from Dampier and 20 km north-west of Karratha on the Northwest coastline of Western Australia.</i></p> <p><b>General Scope of Supply / Services</b></p>

Provide Hazardous Area inspection services for vendor supplied equipment and packages.

Ensuring all Electrical Equipment for Hazardous Area (EEHA) equipment are correctly inspected to allow for early detection of any non-conformances related to vendor equipment.

Equipment protection types will include:

- Flameproof Enclosures / devices (d)
- Increased Safety (e)
- Intrinsic Safety (i)
- Pressurisation (p)
- Types of protection (n)

Electrical Equipment for Hazardous Areas (EEHA) is a specialist field. It requires expert knowledge and experience to ensure electrical safety and compliance in potentially explosive atmospheres.

In general SUBCONTRACTOR will be responsible for hazardous area equipment inspections, as described below:

- Inspections of equipment and packages at Supplier premises prior to Factory Acceptance Test (FAT), in order to highlight nonconformances and associated remedial maintenance or repairs required prior to FAT package acceptance and shipment to site.
- Competency of SUBCONTRACTOR personnel involved in the inspection of electrical equipment in hazardous areas shall be demonstrated in accordance with AS/NZS 4761.1.
- Development, utilisation and return of inspection forms to capture all findings during inspection of hazardous area equipment including updating of hazardous area register.
- Inspection of rectification work completed by vendors to the appropriate standards and specifications.
- Coordination with CONTRACTOR procurement and subcontracts teams to facilitate inspection of equipment in line with project and vendor schedules.

Inspection services will be performed by SUBCONTRACTOR personnel at various vendors works facilities across the globe. International SUBCONTRACTOR personnel presence and availability is viewed as advantageous.

**SCJV to Provide (Exclusions)**

- Office space within the CONTRACTOR's management offices as required to facilitate effective execution of the works.

**Subcontractor to Provide (Inclusions)**

- Detailed management system outlining Inspection procedures providing the confidence to deliver standards of safety and compliance.
- Schedule of rates for remote and international working and travel.
- Schedule of rates for local (Western Australian) work and travel.
- Flights and accommodation for SUBCONTRACTOR's personnel, fee structure for the works to be outlined.

<b>Standards</b>	Compliance with National, International and Industry Standards, Australian and WA Regulatory requirements.
<b>Key Dates</b>	Tender is planned to be issued during November 2023
<b>Point of Delivery</b>	Various.
<b>3. RETURNABLE DOCUMENTS</b>	
<b>List of Returnable Schedules</b>	Capability Statement and confirmation of ability to deliver the required services. Brief overview of any Local Partnerships and Facilities.
<b>4. DISCLAIMER</b>	
This Expression of Interest to gain an insight into the capabilities of potential service providers and not a Tender Invitation or offer - the schedule and content of this work is subject to change pending project demand and timelines.
