### 1. INTRODUCTION

ASC Pty Ltd is seeking Expressions of Interest (EOI) from companies with the capacity and capability to supply High Pressure Air Compressor (as detailed in the Scope of Work below) for the sustainability of the Collins Class Submarines (CCSMs).

The High Pressure Air Compressor will be supplied to ASC North located at Osborne, South Australia.

### 2. SCOPE OF WORK

At a high level, the Scope of Work comprises the supply of the High Pressure Air Compressor:

- Compressor needs to be water cooled.
- Belt driven (needs to run with 45Kw 4P Motor – motor supplied).
- Proposed model space envelope.
- Proposed model if it installed in service on NAVY platform (e.g. submarine) would be ideal.
- Proposed model High Pressure and flow Capabilities (What maximum pressure and flow can unit produce?)

### 3. EOI SUBMISSION REQUIREMENTS

All interested companies must submit a detailed description of their capabilities, including:

- The company's trading name, website, ABN, number of employees and annual turnover;
- The company's capacity and capability to provide the scope of work (as listed above);
- The details of other projects in which the company supplied similar scope;
- What State/s the company has these capabilities in;
- Any other competitive discriminators the company has that are not covered above; and
- The company's point of contact in respect of the submitted EOI.

Following review of EOIs, ASC intends to request proposal(s) from the shortlisted companies.

**Registrations close 4pm (ACST) Monday 13<sup>th</sup> November 2023.**

**All EOI submissions shall be submitted via the Industry Capability Network website.**
