

CHEVRON AUSTRALIA – OPERATIONS

TITLE: C1404470 – Hose Management

DESCRIPTION: Chevron Australia is seeking expressions of interest from service providers able to provide hose management services in support of Company Operations.

Scope is as follows:

- Hose inspection and testing as required by the Generic Maintenance Strategy (GMS), including pressure testing, visual inspection and electrical continuity testing;
- Records of testing to be uploaded into the Computerised Maintenance Management System (CMMS);
- Hose repairs as directed by Chevron Australia;
- Hose tagging and identification, as directed by Chevron Australia, when hoses are found that are not tagged and/or not in CMMS;
- Supply of hoses, couplings and end fittings; and
- Hose assembly typically up to 100 mm (4”).

Hose types include Flexible metal hoses, PTFE hoses, Rubber hoses, and Hydraulic hoses.

The majority of hoses are 50 mm (2”) or under.

Application types include Utility, Chemical, Hydraulic, Hydrocarbon, and Nitrogen.

Services will be required at Chevron Australia Operations at:

- Gorgon LNG Plant on Barrow Island;
- Wheatstone LNG Plant; and
- Wheatstone Offshore Platform.
