WIA is part of the global organisation ITW (Illinois Tool Works), a diversified manufacturing company driven by innovative thinking, customer needs and specialised expertise. Around the globe, ITW companies work side by side with customers to deliver products that contribute to delivering solutions and creating success.

For over 50 years, WIA has been supplying the Australian market with reliable products and expertise that is second to none. Our products are developed, delivered and supported by a team of technically driven professionals who understand the needs of our customers and work with them to deliver products and solutions for the heavy engineering, mining and oil and gas markets.

Summary

On a local level, WIA is trusted by ITW to represent some of the world's leading welding brands here in Australia, including Miller for industrial welding equipment, Hobart for flux cored wires, and Bernard for MIG guns and consumables.

For projects both large and small, these brands are trusted by Australian welding professionals and companies who demand the most cost effective welding outcomes, innovative and reliable products, and superior technical support.

Description

WIA are the welding experts and have a dedicated team on hand who work with our customers to deliver knowledge and packaged solutions that contribute to achieving greater success.

We can do this because both locally and globally our team of highly qualified professionals know the welding market

and have our customers in mind no matter their role - from our engineers who develop our products, to our technical sales specialists who deliver knowledge to our customers, to our customer support team who advises and ensures our customers have the assistance they require.

This is why we are trusted by the best.

Industries Served

- > Defence
- > Manufacturing
