

## CHEVRON AUSTRALIA

**TITLE:** U-16053 Safety Training Services

**DESCRIPTION:** Chevron Australia is seeking expressions of interest from training providers with capability to deliver Onshore and/or Offshore training and assessment for some or all of the courses outlined below.

The service provider shall ensure that all training and assessment activities will be conducted by a Registered Training Organisation (RTO) which has the relevant courses on scope, and which operates in strict compliance with the Standards for Registered Training Organisation (RTOs) 2015, and the relevant provisions of the other elements of the VET Quality Framework.

The training should be conducted to industry-best standards, in an active learning environment with a variety of exercises, case studies, and examples that have applicability to the work place and enrich the learning experience. Where possible, the training examples will be specifically tailored to the Company and its various working environments. Training programs will also be reviewed and updated in accordance with these standards.

All services will be conducted by qualified and competent trainers and assessors in accordance with the Standards for RTOs 2015, and particularly in compliance with the Assessment Requirements and Conditions applicable to each Unit of Competence.

Service requirement will be based in Perth, and may be required to support Chevron Australia Operations in Onslow, Barrow Island, offshore platform and/or other locations as required by Chevron.

Safety training and assessment courses include (but not limited to):
