

CHEVRON AUSTRALIA

TITLE: U-20791 Quarantine Services

DESCRIPTION: Chevron Australia is seeking expression of interest (EOI) from Perth based providers to undertake quarantine services in accordance with the Barrow Island (BWI) Terrestrial and Marine Quarantine Management System (QMS) to support the mobilisation of materials and equipment for shutdowns and turnarounds.

The QMS governs all materials, personnel, vessels and aircraft travelling to, or transferring via, BWI, or the surrounding waters. The specific objectives of the QMS are to:

- Prevent the introduction of Non-indigenous Terrestrial Species and Marine Pests;
- Detect Non-indigenous Terrestrial Species and Marine Pests;
- Control and, unless otherwise determined, eradicate detected Non-indigenous Terrestrial Species and Marine Pests;
- Mitigate adverse impacts of any control and eradication actions on indigenous species taken against detected Non-indigenous Terrestrial Species and Marine Pests.

The QMS comprises guidelines, procedures, standards and checklists organised within a hierarchical structure, with each tier of documents supporting the one preceding it.

An EOI is sought from Perth based providers demonstrating infrastructure, internal systems (processes and procedures) and organisational capability to undertake blue tag quarantine services on general cargo, including containerised or crated equipment/materials, skid, steel or loose equipment, plant or mobile equipment (complex and non-complex), air freight and special and sensitive equipment destined for Barrow Island. The services to be provided must include the following:

- Blue tag inspections of BWI destined materials and equipment;
- Remediation of materials and equipment to remove quarantine risk material;
- Provision of quarantine treatments including the ability to undertake preventative and remedial fumigation (this may include ethyl formate and methyl bromide fumigants);
- Infrastructure to support quarantine activities (e.g. certified pallet/container inspection stands, wash pad);
- Ability to shrink wrap, crate or containerise materials and equipment.

Applicants will be required to provide documented processes addressing the following criteria:

- Vegetation and weed control program;
- Pest/rodent control program;
- Protection and/or isolation of BWI cargo from potential sources of quarantine risk material;

- Quarantine housekeeping of facility;
- Record management;
- Audit or internal compliance monitoring;
- Accreditation and competency of Blue Tag Quarantine Inspectors
