

CHEVRON AUSTRALIA

TITLE: U-23092 – Roster Management Software Solution

DESCRIPTION: Chevron Australia (Chevron) is seeking expressions of interest from service providers with the capability to supply a Roster Management Software Solution to support the generation and management of workforce rosters across Chevron's operating assets.

Key requirements of the Roster Management Software Solution to include (but not be limited to):

- The ability to create multiple roster patterns across assets and a variety of workforce groups including long-term structured rosters and short-term rosters;
- The ability to quickly assess personnel and shift team competencies to verify regulatory requirements;
- Support for flight and accommodation management with flexibility to support charter and commercial transportation providers;
- Reporting functionality to provide information throughout the Roster Management process;
- The ability to support Persons on Board (POB) reconciliation and Mustering;
- Workflow integration incorporating change approvals;
- Remote access to Roster and related mobilisation information using Internet accessible devices;
- Scalable application hosting and subscription models; and
- The ability to integrate bidirectionally with company Systems of Records.
